literary texts featuring at their very core this confrontation with the signifier with the written code itself This book argues that there is something in literature that drives us back again and again to the loss we have suffered as human beings to what we had to undergo to become human our subjection to the common place of language Picard shows complex Lacanian concepts at work in the field of reading pathologies emphasizing close reading and a clinical attention to the letter of the texts far from the psychobiographical attempts at psychologizing literary authors From Illiteracy to Literature presents a novel psychodynamic approach that will be of great interest to psychotherapists and language pathologists appealing to literary scholars and those interested in the process of reading and literariness Cassell's Illustrated Family Paper ,1865
