## **Alsatian Acts Of Identity Language Use And Language Attitudes In Alsace:**

**Alsatian Acts of Identity** Liliane Mangold Vassberg, 1993 A German dialect spoken in Alsace France has rapidly lost way to French since 1945 This book investigates language choice language attitudes and ethnic identity in Alsace today The Alsatian case study points out the complex interrelationship of linguistic and identity change with historical social and psychological processes

**Alsatian Acts of Identity** Liliane Mangold Vassberg, 1989 *Alsace to the Alsatians?* Christopher J. Fischer, 2014-04-01 The region of Alsace located between the hereditary enemies of France and Germany served as a trophy of war four times between 1870 1945 With each shift French and German officials sought to win the allegiance of the local populace In response to these pressures Alsatians invoked regionalism articulated as a political language a cultural vision and a community of identity not only to define and defend their own interests against the nationalist claims of France and Germany but also to push for social change defend religious rights and promote the status of the region within the larger national community Alsatian regionalism however was neither unitary nor unifying as Alsatians themselves were divided politically socially and culturally The author shows that the Janus faced character of Alsatian regionalism points to the ambiguous role of regional identity in both fostering and inhibiting loyalty to the nation Finally the author uses the case of Alsace to explore the traditional designations of French civic nationalism versus German ethnic nationalism and argues for the strong similarities between the two countries conceptions of nationhood

**The Changing Language Roles and Linguistic Identities of the Kashmiri Speech Community** M. Ashraf Bhat, 2017-06-23 This book operates from the premise that linguistic identities are important because they make sense to people are meaningful and have an impact on the thinking and behaviour of individuals and groups both overtly and covertly The framework outlined here synthesises key works on linguistic identity and draws together insights from a range of disciplines such as sociolinguistics linguistic anthropology discourse analysis cognitive sciences and social psychology It investigates linguistic assertions of community identity in the multilingual context of the Kashmir region in India by studying the dimensions of changing language roles and linguistic practices in relation to the process of creating and maintaining new linguistic identities under different circumstances It examines the nature of changing language roles as a combination of several linguistic and extra linguistic factors which include script uncertainty interlingual diglossia language attrition language policies of the state collective attitudes towards language s corresponding speech communities intergenerational transmission and instrumental orientation among others It demonstrates that changes in role are principally motivated by various factors which may lead to the demise of the distinct symbol and roots of the Kashmiri linguistic cultural identity in favour of the non native code Urdu which could emerge as the primary linguistic identity in the near future

*Intergenerational Memory and Language of the Sarajevo Sephardim* Jonna Rock, 2019-04-10 This book analyses issues of language and Jewish identity among the Sephardim in Sarajevo The author examines how Sephardim belonging to three

different generations in Sarajevo deal with the challenge of cultivating hybrid and hyphenated identities under destabilizing conditions exploring how a group of interviewees define and describe the language they speak since Yugoslavia's collapse Their self identification through language is then placed within the context of other cases of linguistic and ethnic identity formation in European minority groups This book will be of interest to students and scholars working in several related fields and disciplines including Slavic studies Historical Anthropology Jewish History and Holocaust studies Sociolinguistics and Memory studies

**Language and National Identity** Leigh Oakes, 2001-01-01 This book re-examines the relationship between language and national identity Unlike many previous studies it employs a comparative approach France and Sweden have been chosen as case studies both for their similarities e.g. both are member states of the European Union as well as their important differences e.g. France subscribes in principle to a civic model of national identity whereas the basis of Swedish identity is undeniably ethnic It is precisely differences such as these which allow for a more comprehensive understanding of the ethnolinguistic implications of some of the major challenges currently facing France Sweden and other European countries regionalism immigration European integration and globalization The present volume benefits from the use of a multidisciplinary approach and differs from others on the market because of the variety of methods of inquiry used A series of societal analyses is complemented by an empirical component bringing a more grounded understanding to the issue of language and national identity

**Language Maintenance and Language Death** Karen A. Roesch, 2012 This book provides the first extensive description of Texas Alsatian a critically endangered Texas German dialect as spoken in Medina County in the 21st century The dialect was brought to Texas in the 1840s by colonists recruited by French entrepreneur Henri Castro and has been preserved with minimal change for six generations Texas Alsatian has maintained lexical phonological and morphosyntactic features which differentiate it from the prevalent standard near varieties of Texas German This study both describes its grammatical features and discusses extra linguistic factors contributing to the dialect's preservation or accelerating its decline e.g. social historical political and economic factors and speaker attitudes and ideologies linked to cultural identity The work's multi-faceted approach makes it relevant to a broad range of scholars such as dialectologists historical linguists sociolinguists ethnographers and anthropologists interested in language variation and change language and identity immigrant dialects and language maintenance and death

**Language Ideologies, Policies and Practices** C. Mar-Molinero, P. Stevenson, 2016-01-13 The contributors to Language Ideologies Policies and Practices investigate the workings of language ideologies in relation to other social processes in a globalizing world They explore in detail the specific ways in which language ideologies underpin language policy and the relationship between public policies and individual practices Particular attention is given to Europe where the impetus to social transformation within and across national boundaries is in renewed tension with conflicting national and supra-national interests with these tensions reflected in the complex issues of language choice and language policy

**Cantonese as Written Language** Don Snow, 2004-10-01

Cantonese is the only dialect of Chinese which has developed a widely known and used written form. It has played a role in publishing in the Guangdong region since the late Ming dynasty when various types of verses using Cantonese were published as *mu yu shu* wooden fish books. In the early twentieth century these dialect texts were joined by Cantonese opera scripts published as popular reading material. However it was only after the end of the Second World War that written Cantonese came to be widely used in popular newspapers and magazines advertising and in the private communications. *Cantonese as Written Language* examines this development in the broader context of diglossia and also of the patterns by which spoken vernaculars have developed written forms in other societies. Based on primary source research including interviews with publishers and writers who played an important role in the growth of written Cantonese the author argues that this move of Cantonese into the realm of written language is closely associated with Hong Kong's distinct local culture and identity. The growth of the written vernacular also reflects the territory's evolving cultural distinctiveness from mainland China first as a British colony and now as a Special Administrative Region of China. **Linguistic Landscapes** Jeffrey L. Kallen, 2023-06-22. Illustrated with a range of photographs this book is the first overview of the rapidly developing field of linguistic landscapes an area of study at the crossroads of language society geography and visual communication. It is essential reading for academic researchers and students of sociolinguistics applied linguistics and discourse analysis.

Identity, Insecurity and Image D. E. Ager, 1999-01-01. This text is about the relationship between language and the society that uses it. It specifically aims to discover what drove and drives the French to concentrate so much on language on what it is that characterises their approach and on the explanations for the policies governments have pursued in the past and present. *ICEL 2019* Sony Sukmawan, Ive Emaliana, Kundharu Saddhono, Muhammad Rohmadi, Chafit Ulya, Memet Sudaryanto, We are delighted to introduce the proceedings of the first edition of the 2019 International Conference on Advances in Education Humanities and Language ICEL. **Tourism, and Meaning** Michelle M. Metro-Roland, Daniel C. Knudsen, Charles E. Greer, 2016-04-22 How do we re theorize tourism By drawing less on the Foucauldian notion of tourism as gazing and instead focusing on the social construction of meaning in the landscape this insightful book provides an innovative and compelling new approach to tourist studies Arguing that in any view of the landscape and in tourism generally there is a multiplicity of insider and outsider meanings the book grounds tourism studies within the framework of social theory and particularly in the social theoretic approaches to landscape Bringing together specialists in tourism and landscape studies to discuss the relationships between the two it finds that issues of identity are a common thread and are raised with regard to the social construction of landscape and its portrayal through tourism The international studies range in scale from regional to national personal to political and from

local residents to international tourists highlighting the multiplicity of interpretations and meanings between these scales

*German Minorities in Europe* Stefan Wolff, 2000 This volume addresses the issue of Germany's external minorities exploring the complex interrelationship between their ethnic identity and sense of cultural belonging on the one hand and the political economic legal and social situation in their respective societies on the other **Constructing French Alsace**

William Shane Story, 2001 **Language Contact at the Romance-Germanic Language Border** Jeanine

Treffers-Daller, Roland Willemyns, 2002 The current volume brings together sociolinguistic analyses of language contact along the Romance Germanic Language Border shedding more light on the variable and the universal elements in language contact and shift It covers the whole range of the border from French Flanders through South Tirol Every part of it has been treated by outstanding experts They describe the current state of the art in their portion of the language border and include information on the legal and or practical status of the language border and the status and function of all languages concerned Attitudinal and language planning initiatives as well as the standardisation status of the regionally official and minority languages are discussed Language borrowing code switching and other language contact phenomena are analysed in detail *The Multilingual Experience in Egypt, from the Ptolemies to the Abbasids* Arietta Papaconstantinou, 2016-12-14

For over a millennium and a half Egypt was home to at least two commonly used languages of communication Although this situation is by no means exceptional in the ancient and medieval worlds the wealth of documentary sources preserved by Egypt's papyri makes the country a privileged observation ground for the study of ancient multilingualism One of the greatest contributions of papyri to this subject is that they capture more linguistic registers than other ancient and medieval sources since they range from very private documents not meant by their author to be read by future generations to official documents produced by the administration which are preserved in their original form This collection of essays aims to make this wealth better known as well as to give a diachronic view of multilingual practices in Egypt from the arrival of the Greeks as a political force in the country with Alexander the Great to the beginnings of Abbasid rule when Greek and slowly also Coptic receded from the documentary record The first section of the book gives an overview of the documentary sources for this subject which for ancient history standards are very rich and as yet under exploited The second part contains several case studies from different periods that deal with language use in contexts of varying breadth and scope from its ritual use in magic or the liturgy to private letters and state administration **Measured Language** Jeffrey Connor-Linton, Luke

Wander Amoroso, 2014-02-28 *Measured Language* presents studies using forms of measurement and quantitative analysis current in diverse areas of linguistic research from language assessment to language change from generative linguistics to experimental psycholinguistics and from longitudinal studies to classroom research **A Selected Bibliography on the Sociology of Language with the Emphasis on Sources on Language Planning in Africa**

August Dawid de Villiers Cluver, 1996 This work aims to provide the most comprehensive bibliography in the domain of Sociolinguistics and in the field

of language planning The 640 page publication gives access to a large percentage of the published literature via a sophisticated thesaurus As the title indicates Africa and specifically southern Africa is covered in great detail Sources on the history and development of the languages of Namibia and Zimbabwe have been included Apart from sources on the languages of Africa the bibliography also offers a comprehensive overview on topics such as language conflict language decline language development and language rights as well as a section on translations and interpreting The categorisation of sources is intended to stimulate researchers and postgraduate students and this makes the bibliography an indispensable tool for librarians and senior academics
