Alternative World Scenarios for a New Order of Nations . **Alternative World Scenarios for a New Order of** Nations Charles William Taylor, 1993 This futures book reflects the global trends and events of the recent past and those of today that are bringing about change to the world's political economic social technological and military environments The forecasts found throughout the book are derived from analysis of the open literature and other media the author's experience as a futurist and his own futures writings This book was written as a text and guide for long range planners policymakers and others It provides a set of plausible scenarios against which users can build policies and decisions while anticipating and judging their consequences before implementation Alternative World Scenarios for a New Order of Nations Lieutenant G. Scott Taylor, 2012-12-07 This book is written to provide decisionmakers policymakers long range planners and others interested in the future a means to compare the consequences of their actions taken today to plausible future alternative world environments orscenarios Earlier work by the author has provided the four basic scenarios which are easily monitored for updating Scenario updating is a task that is advisable at least every 5 years tomaintain the usefulness of the scenarios The text presented here describes the processes and methods for the creation of alternative scenarios and the use of the Cone of Plausibility described in Creating Strategic Visions Taylor 1990 toproject the scenarios 10 to 30 years or more into the future The text also supports and is based on the following two previous writings of the author Alternative World Scenarios for StrategicPlanning Taylor 1988 and 1990 and A World 2010 A New Order of Nations Taylor 1992 This is a work of the Strategic Studies Institute The Strategic Studies Institute of the U S Army War College publishes national security and strategic research and analysis which serves to influence policy debate and bridge the gap between Military and Academia

An Alternative Scenario for the Reunification of Korea Steve A. Fondacaro,1997 This paper predicts an alternate scenario to Korean reunification to those currently being discussed in and out of South Korea Much of what has been written discusses the demise of the present North Korean government along a spectrum of turbulence from gradual decay to violent implosion The predicted results also vary from peaceful absorption by the South Korean government to a war of desperation scenario precipitated by the decaying Northern regime in a last ditch effort to retain power This paper explores a scenario

where the two Koreas end up as secondary players in the future of the Korean peninsula The primary regional actor to emerge will be China As the ascendant regional power China will shape events on the Korean Peninsula to fit its own future vision of Northeast Asia It is further proposed that this Chinese vision will seek to maintain the peaceful division of North and South Korea in the short term 10 to 20 years following the demise of the present North Korean government China is seen in this scenario as moving unilaterally on the basis of long standing agreements with North Korea into North Korea as the government implodes It is in the Chinese interest to prevent the uncontrolled rise of a new potentially powerful reunified Korean regional competitor Additionally China will seek to minimize United States influence in the region For obvious historical military and economic reasons the Japanese desire to maintain the geopolitical and economic status quo will cause them to play a supporting role in the Chinese effort This move together with its predictable control of the Spratly Islands oil and natural gas reserves an already powerful military and rapidly growing economy will put China in a position to much more effectively influence the future of the region U.S. Approaches to Global Security Challenges Kristen Boon, Aziz Z. Hug, 2012 Terrorism Commentary on Security Documents is a series that provides primary source documents and expert commentary on the worldwide counter terrorism effort Among the documents collected are transcripts of Congressional testimony reports by such federal government bodies as the Congressional Research Service CRS and the Government Accountability Office GAO and case law covering issues related to terrorism Most volumes carry a single theme and inside each volume the documents appear within topic based categories The series also includes a subject index and other indices that guide the user through this complex area of the law Volume 124 U S Approaches to Global Security Challenges analyzes U S strategy toward security threats across the globe and identifies the beginnings of a shift away from a reliance on military power to the application of various types of civilian power which utilize a multinational approach The documents introduced by Douglas Lovelace include U S perspectives on the international security situation generally as well as reports on more specific topics such as the security situation in Afghanistan terrorism in East Africa the evolving role of NATO and cooperation between the U S and other governments such as the EU and China in the fight against terrorism Special Operations Forces Richard H. Shultz, Robert L. Pfaltzgraff, W. Bradley Stock, 1995 New World Strategy Harry G. Summers,1995-11-09 Discusses strategies for military policymaking and foreign involvements in the post Cold War era Back Implications of a Changing NATO Phillip R. Cuccia, 2010 NATO officials plan to unveil the new NATO Strategic cover Concept during the Alliance's summit in Portugal at the end of this year This monograph focuses on the impact the Strategic Concept will have on the Alliance It analyzes recent trends within NATO and their implications and describes four possible future scenarios which would impact on NATO The Alliance membership has grown to 28 countries and it faces problems with changing demographics an awkward relationship with Russia a war in Afghanistan and threats of global jihad Muslim immigration into Europe and population aging will have a great impact on European views of the Alliance NATO must decide

how closely it wants to work and coordinate with Russia in future endeavors The most important issue at hand is how NATO is going to fare coming out of the war in Afghanistan It is imperative that the New Strategic Concept address NATO goals in Afghanistan and the ways and means of accomplishing those goals Defined goals will give member nations objectives while formulating national defense plans Getting the Strategic Concept right is the first step in maintaining the health of the Alliance Summary from book Implications of a Changing NATO ,2010 The Postnormal Times Reader Ziauddin Sardar, 2019-01-01 IIIT Books In Brief Series is a valuable collection of the Institute's key publications written in condensed form to give readers a core understanding of the main contents of the original Postnormal times are best defined as an in between period where old orthodoxies are dying new ones have yet to be born and very few things seem to make sense or as Ezio Mauro puts it we are hanging between the no longer and the not yet and thus we are necessary unstable nothing around us is fixed not even our direction of travel The postnormal times theory attempts to make sense of a rapidly changing world where uncertainty is the dominant theme and ignorance has become a valuable community The Postnormal Times Reader is a pioneering anthology of writings on the contradictory complex and chaotic nature of our era It covers the origins theory and methods of postnormal times and examines a host of issues ranging from climate change governance Middle East to religion and science from the perspective of postnormal times By mapping some of the key local and global issues of our transitional age the Reader suggests a way of navigating our turbulent futures A World 2010 Charles William Taylor, 1992
