Not in My Library! Sanford Berman, 2013-08-14 Foreword by Mitch Freedman a reprinted Counterpoise interview and 45 of Sanford Berman's U L columns dealing with book burning genocide government secrecy and repression cataloging indexing classism self censorship and free speech for library staff et cetera Index by Chris Dodge **Progressive Library Organizations** Alfred Kagan, 2015-03-27 This work presents the history and impact of the seven most important progressive library organizations worldwide in Austria Germany South Africa Sweden United Kingdom and two in the United States Each organization is considered within its national context and in fact the English word organization does not quite fit the nature of all of the groups The South African organization LIWO was transitional in that it helped bring South African librarianship from apartheid to majority rule and then disbanded The other organizations or their successors are still working in one form or another Some of the organizations have had or continue to have vibrant local chapters though many of the original activists have recently retired or died The author has interviewed many of them at a time when they were assessing their life work and handing off to new generations *Alternative Library Literature, 1998/1999* Sanford Berman, James P. The Power to Name H.A. Olson, 2013-12-01 In this preface I will include explanations of three factors the intended audience of this book the structure of the book and the acknowledgement of many who contributed to its fruition *The Power to Name* is intended for two audiences those interested in knowledge organization and those interested in theoretical study of representation These two groups come from the perspective of the structure and principles of organization and from the perspective of understanding the cultural ramifications of naming The first may be those who develop subject representation schemes for a wide range of purposes and those who apply those schemes They may be librarians information scientists web developers or knowledge managers The second group are likely to be feminist poststructural and postcolonial theorists who explore the construction of meaning It is my hope that both of these audiences will find the case of subject representation in library catalogues illuminating in a much wider sense I have tried to include a modicum of explanation for each audience while avoiding over explanation for either This approach will require some patience and some close reading from each The intellectual structure of the book is introduced in the first chapter However in a book on organization of knowledge and information it is important to also explain its internal syndetic structure I have used some somewhat unconventional approaches The book contains a fair number of manual hyperlinks references to earlier discussions of a topic in the form of see also page referrals
