Almost HMNZS Neptune Jack S Harker,1991-01-01 **The Sinking of HMAS Sydney** Doctor Tom Lewis,2024-01-03
HMAS Sydney was the pride of the fleet during the Second World War A light cruiser and one of Australia s main combat vessels On the 19th November 1941 off the coast of Western Australia The Sydney engaged in a fierce and bloody battle with the German raider Kormoran Following this action The Sydney failed to return to port An extensive search and rescue carried out but the warship had disappeared with all 645 men on board Whilst the battle lasted little more than an hour this single ship engagement remains Australia s greatest naval disaster More Australian servicemen died in the battle between the German raider Kormoran and the light cruiser HMAS Sydney than perished in the Vietnam War It was not until 2008 that the wreck was discovered The passage of time between the sinking and the discovery led to numerous mystery and conspiracy theories all of which started replacing the truth Now with an explanation of how those on board lived fought and died this book tells the full story *Bardia* Craig Stockings,2009 Challenging in its perspective and controversial in its conclusions Bardia is a riveting account of the first large scale battle planned and fought by an Australian formation in World War II Book Jacket **Log of Logs** Ian Hawkins Nicholson,1990 **The Birth and Growth of the Royal New Zealand Navy** Jack S. Harker,2001 A comprehensive account of the naval history of New Zealand and the RNZN s role in the Second World War *Ubi Sumus?* John B. Hattendorf,1994 Ships Monthly ,2004 Catapult Aircraft Leo Marriott,2020-01-24 A concise history of this specialty aircraft used during World Wars I and II During World War I the navies of the opposing forces discovered the value of aerial reconnaissance and many experiments were made to allow larger warships to carry one or sometimes two aircraft aboard In the early days these were float planes that were lowered by crane into the sea and then lifted back aboard upon their return This was a lengthy affair and when a speedy departure was necessary time was of the essence A new system was devised so that a powerful catapult system and a short ramp could with the added speed of the ship get an aircraft airborne in a fraction of the time previously required Thus was born a highly specialised type of aircraft This book includes all the major designs that went to war in the First and Second World Wars and includes aircraft used by all the combatants It looks at how the aircraft evolved and how the warships were modified to accommodate the aircraft and the catapult system The use of these fixed wing aircraft was abandoned when the invention of the helicopter was made in the early post WWII years *All Hands* ,1966 *Sea Breezes* ,2006 **White Ensign** Captain S.W.
