Almost Human:

Almost Human Rena Marks, 2018-09-17 Can she see past the alien differences that leave them almost human The only set of Xeno Sapien twins Jett and Brax were created from each other They balance each other They can't live without each other But they were also created to destroy each other The first time they see Heather an unusual new human employee they decide they can't live without her Heather was born different a throwback redhead in a world of brunettes Surely she would know what it's like not to fit in And fit in the twins don't The scientists who created them depended on their alien attributes over their human DNA for what better way to get them to fight to the death Heather Marlow had an ultimate goal Apply at Xenia steal a real live Xeno Sapien for ransom money and rescue her grandmother in one fell swoop But things went awry After being captured for her crime the twins get their wish She won't be allowed to live without them The story behind the series When futuristic Earth finds alien DNA and creates a new species of hybrids in hidden labs Dr Robyn Saraven helps the creatures escape She uses her connections to establish their own city on Earth Ground where they can learn grow and avoid the corruption and greed that created them 5 0 out of 5 stars Hot Hot Hot Waited for this story and it was just as amazing as I had hoped I love all the books in this series but I really loved this one The Genetically Altered Humans Series Book 1 Xeno Sapiens Book 2 Earth Ground Book 3 Siren Book 4 Beast's Beauty Book 5 Almost Human Book 6 Forbidden Touches Book 7 Coveting Ava Book 8 For Everly Book 9 Assassin's Mate Book 10 Sextet Book 11 Tempting Tempest Book 12 Falling For Trance Book 13 Damaged Goods Book 14 Alien's Bride Book 15 Dual Lives Book 16 Reson's Lesson Book 17 A Mate For Max Book 18 Dragon's Mate Book 19 Fated Waited for this story and it was just as amazing as I had hoped Almost Human HC Denham, 2020-11-28 No human being is perfect But suppose we were able to create machines which are like humans only better Cleverer more beautiful more empathetic more rational *Almost Human* Shirley C. Strum, 2001-09-15 In the same way that Jane Goodall's pioneering study of chimpanzees revealed their likeness to humans Strum's work shows how contrary to the popular image and the scientific evidence of the time the more distantly related baboons are just as socially savvy **Almost Human** D. A. Goodrich, 2019-02-23 This is D A Goodrich's third chapbook a little darker and more provocative than the first two This one deals with terror cruelty disease inhumanity and torture Enjoy Almost Human Lee Gutkind, 2010-09-06 A remarkable intense portrait of the robotic subculture and the challenging quest for robot autonomy The high bay at the Robotics Institute at Carnegie Mellon University is alive and hyper night and day with the likes of Hyperion which traversed the Antarctic and Zoe the world's first robot scientist now back home Robot Segways learn to play soccer while other robots go on treasure hunts or are destined for hospitals and museums Dozens of cavorting mechanical creatures along with tangles of wire tools and computer innards are scattered haphazardly All of these zipping and zooming gizmos are controlled by disheveled young men sitting on the floor folding chairs or tool cases or huddled over laptops squinting into displays with manic intensity Award winning author Lee Gutkind immersed himself in this frenzied subculture

following these young roboticists and their bold conceptual machines from Pittsburgh to NASA and to the most barren and arid desert on earth He makes intelligible their discoveries and stumbling points in this lively behind the scenes work

Almost Human Lee Berger, John Hawks, 2017-05-09 It was the find of a lifetime The bones of multiple individuals hidden deep underground in the region of South Africa called the Cradle of Humankind Only the slimmest expedition members could squeeze through the jagged rock channels to reach the cave and its amazing treasures In this freewheeling tale of science and exploration celebrated paleoanthropologists Lee Berger and John Hawks tell the story of how Berger and his team discovered rich caches of fossils representing all new species on the human family tree How old are these bones How did they get so deep underground What do they tell us about our earliest ancestors Berger s answers transform our sense of who we are and how we got here

Almost Human Alfred Fidjestøl, 2019-09-17 Alternately joyous and heartbreaking Jane Goodall A moving and revealing biography of Norway s most famous chimpanzee Julius is a national celebrity the inspiration behind pop hits and bestselling books He s also a chimpanzee born in captivity but raised in a zookeeper s home after his own mother rejects him Julius s new parents change his diapers and comfort him when he has nightmares and their daughters play with him But soon they must reintroduce Julius to the zoo a challenging task that brings new learnings on primate behavior and the dangers of animal celebrity Alternately humorous and heartbreaking *Almost Human* shows that primates are more like us than we once thought possible It also charts the transformation of one zoo over time from a small operation of animals behind bars to a fast growing attraction coming to terms with twenty first century views on animal rights and welfare

Being Human Anna L. Peterson, 2001-05-26 *Being Human* examines the complex connections among conceptions of human nature attitudes toward non human nature and ethics Anna Peterson proposes an ethical anthropology that examines how ideas of nature and humanity are bound together in ways that shape the very foundations of cultures Peterson discusses mainstream Western understandings of what it means to be human as well as alternatives to these perspectives and suggests that the construction of a compelling coherent environmental ethics will revise our ideas not only about nature but also about what it means to be human

Ethics, Law and the Business of Being Human Charles Foster, 2025-09-02 This book presents an inquiry into the sort of creatures we are If we don t know what we are we can have no idea how to behave or thrive either as individuals or as a society This book in a series of short essays addresses the most fundamental question facing each of us We are not here long how then should we live as individuals and as members of society Philosophers and lawyers have long asked the question but their answers are often garbled and they have not learned a language in which to talk to one another The Academy which should lead the debate is often too riddled with presumption and systemic dysfunction to be either useful or interesting Foster surveys the academic and legal landscape critically and suggests how some of the ills can be remedied

Secret UFO Files Rafal Col, 2013-11-28 Look up at the sky the universe is so big it is really hard not to think that there is no other intelligent life out there Are we alone An old question that I think we

all know the answer to already But what do we know What does the government know and how much do they know Classified information revealed statements made by people who are risking their own safety for people to know How do they look Are they already here The statements in this book are all real and are facts Do you know everything

The Psychology Behind Design Jeongmin Lee,Wujin Chu,Chris Baumann,2024-07-05 This book explains the psychology theory behind design using plain language The inspiration came from the democratic design philosophy of IKEA This book attempts to help people enjoy designs more by explaining consumer psychology that lurks behind designs of everyday things Another purpose of the book is to aid designers and marketers in understanding consumer behavior and to help them leverage this knowledge in their respective fields Marketers and designers often find it hard to communicate effectively due to their disparate fields However this book aims to bridge this gap by showing that activities in both design and marketing can be better understood through the lens of design psychology promoting better communication and collaboration Although the book contains more than a hundred psychology theories that can affect design it is structured in a reader friendly manner and chapters are segmented such that each chapter contains about 7 15 theories Despite the large amount of academic research behind the theories the application of these theories comes from commonplace consumer behaviors and daily design examples promising an easy relatable read

Gender and Genes Klasien Horstman,Marli Huijter,2013 This Yearbook of Women s History Jaarboek voor Vrouwengeschiedenis is dedicated to Gender and Genes Intruding upon our everyday lives the world of DNA genes and genomics has become a challenging field of research both clinical and biomedical as well as socio cultural It is also a challenging topic for a Yearbook which traditionally focuses on women and gender from a historical point of view Gender issues are part and parcel of genes and genomics in scientific research and socio cultural discourses and representations Current literature on genes and genomics does not abound in analyses of biomedical and socio cultural realms where gender aspects are played out and exchanged This Yearbookmay thus contribute to a field of analysis which contextualizes history from the viewpoint of current biotechnological developments This volume contains articles on medical cases reproductive testing and the case of the sex chromosomes and framing cancer risk in women and men cultural representations a portrait of female scientist Rosalin Franklin and interviews with feminist science philosophers Katarina Karkazis and Donna Dickenson

Are Humans Being Steven Langton,2024-04-03 ARE HUMANS BEING is for all Generations it tells that inspiration is such an interesting word with a positive basis in thought To inspire is to suggest convince create a change in another human being resulting in a personal achievement ARE HUMANS BEING explains how i personally viewed the world humankind at the piont in time when a new century and a new millennium were about to begin The much awaited for 21st century the century of technological and scientific advancement into an unknown future Yet humankind has endured to growing progressing to a world that has changed human behaviour From the perspective point of view that we the human species are in the present heading for possible extinction We know why yet do we focus our thoughts to ensuring a liveable

future for the generations to come After all to think about the future we as individuals must think about the present and what we the human species are doing to ensure not only now but also a future that is beneficial and safe for all human beings ARE HUMANS BEING speaks of concern for the Earth the world and humankind as a whole Yet most importantly it is about the future of we the human species As you read ARE HUMANS BEING Please remember it is about how we think and how we apply our thoughts to changing our world for a better and more beneficial world for all whom live on our incredible planet I hope you enjoy reading ARE HUMANS BEING and thank you for choosing to do so Remember it all begins with a thought

Chatbots and the Domestication of AI Hendrik Kempt, 2020-09-26 This book explores some of the ethical legal and social implications of chatbots or conversational artificial agents It reviews the possibility of establishing meaningful social relationships with chatbots and investigates the consequences of those relationships for contemporary debates in the philosophy of Artificial Intelligence The author introduces current technological challenges of AI and discusses how technological progress and social change influence our understanding of social relationships He then argues that chatbots introduce epistemic uncertainty into human social discourse but that this can be ameliorated by introducing a new ontological classification or status for chatbots This step forward would allow humans to reap the benefits of this technological development without the attendant losses Finally the author considers the consequences of chatbots on human human relationships providing analysis on robot rights human centered design and the social tension between robophobes and robophiles

Man Writes Dog William Farina, 2014-04-02 Over the millennia many great writers from Pliny and Plutarch to C S Lewis and John Steinbeck have addressed diverse canine themes in their work usually in a broader human context Late in the 20th century it was conclusively established by modern science that all dogs without exception are descended from wolves Viewed through the dynamic lens of this new model the constantly evolving relationship between humankind and canines both wild and domesticated appears more complex and intertwined than ever before This survey reviews what 20 selected authors from the Western tradition have had to say on the same subject matter leading up to our present times
