Alternative Alices Visions And Revisions Of Lewis Carrolls Alices An Anthology:

Alternative Alices ,1997 *Alternative Alices* Carolyn Sigler,2014-07-11 Lewis Carroll s Alice in Wonderland 1865 and Through the Looking Glass 1871 are among the most enduring works in the English language In the decades following their publication writers on both sides of the Atlantic produced no fewer than two hundred imitations revisions and parodies of Carroll s fantasies for children Carolyn Sigler has gathered the most interesting and original of these responses to the Alice books many of them long out of print Produced between 1869 and 1930 these works trace the extraordinarily creative and often critical response of diverse writers These writers male and female radical and conservative appropriated Carroll s structures motifs and themes in their Alice inspired works in order to engage in larger cultural debates Their stories range from Christina Rossetti s angry subversion of Alice s adventures Speaking Likenesses 1874 to G E Farrow s witty fantasy adventure The Wallypug of Why 1895 to Edward Hope s hilarious parody of social and political foibles Alice in the Delighted States 1928 Anyone who has ever followed Alice down the rabbit hole will enjoy the adventures of her literary siblings in the wide Wonderland of the human imagination **Alternative Alices** Carolyn Sigler,2021-11-21 Lewis Carroll s Alice in Wonderland 1865 and Through the Looking Glass 1871 are among the most enduring works in the English language In the decades following their publication writers on both sides of the Atlantic produced no fewer than two hundred imitations revisions and parodies of Carroll s fantasies for children Carolyn Sigler has gathered the most interesting and original of these responses to the Alice books many of them long out of print Produced between 1869 and 1930 these works trace the extraordinarily creative and often critical response of diverse writers These writers male and female radical and conservative appropriated Carroll s structures motifs and themes in their Alice inspired works in order to engage in larger cultural debates Their stories range from Christina Rossetti s angry subversion of Alice s adventures Speaking Likenesses 1874 to G E Farrow s witty fantasy adventure The Wallypug of Why 1895 to Edward Hope s hilarious parody of social and political foibles Alice in the Delighted States 1928 Anyone who has ever followed Alice down the rabbit hole will enjoy the adventures of her literary siblings in the wide Wonderland of the human imagination **Fairy Tales Reimagined** Susan Redington Bobby,2014-01-10 Although readers and filmgoers are strongly familiar with Disney s sanitized child centric fairy tales they are quick to catch on to reworkings of classic tales into a contemporary context The rise in such retellings seems to indicate that readers are hungry for a new narrative one that hearkens back to the old yet moves the storyline forward to reflect conditions of the modern world No mere escapist fantasies the reimagined fairy tales of the late 20th and early 21st centuries reflect social political and cultural truths Sixteen essays consider fairy tales recreated through short stories novels poetry and the graphic novel from both best selling and lesser known writers applying a variety of perspectives including postmodernism psychoanalysis Marxism feminism queer theory and gender studies Along with the classic fairy tales fiction from writers such as Neil Gaiman Stardust and Gregory Macquire Wicked is covered **Dictionary of Artists' Models** Jill

Berk Jimenez, 2013-10-15 The first reference work devoted to their lives and roles this book provides information on some 200 artists models from the Renaissance to the present day Most entries are illustrated and consist of a brief biography selected works in which the model appears with location a list of further reading This will prove an invaluable reference work for art historians librarians museum and gallery curators as well as students and researchers *Lewis Carroll's Alice's Adventures in Wonderland and Through the Looking-Glass* Zoe Jaques, Eugene Giddens, 2016-05-06 Emerging in several different versions during the author's lifetime Lewis Carroll's Alice novels have a publishing history almost as magical and mysterious as the stories themselves Zoe Jaques and Eugene Giddens offer a detailed and nuanced account of the initial publication of Alice's Adventures in Wonderland and Through the Looking Glass and investigate how their subsequent transformations through print illustration film song music videos and even stamp cases and biscuit tins affected the reception of these childhood favourites The authors consider issues related to the orality of the original tale and its impact on subsequent transmission the differences between the manuscripts and printed editions and the politics of writing and publishing for children in the 1860s In addition they take account of Carroll's own responses to the book's popularity including his writing of major adaptations and a significant body of meta-textual commentary and his reactions to the staging of Alice in Wonderland Attentive to the child reader how changing notions of childhood identity and needs affected shifting narratives of the story and the representation of the child's body by various illustrators the authors also make a significant contribution to childhood studies *Voracious Children* Carolyn Daniel, 2006-02-22 *Voracious Children* explores food and the way it is used to seduce to pleasure and coerce not only the characters within children's literature but also its readers There are a number of gripping questions concerning the quantity and quality of the food featured in children's fiction that immediately arise why are feasting fantasies so prevalent especially in the British classics What exactly is their appeal to historical and contemporary readers What do literary food events do to readers Is food the sex of children's literature The subject of children eating is compelling but why is it that stories about children being eaten are not only horrifying but also so incredibly alluring This book reveals that food in fiction does far far more than just create verisimilitude or merely address greedy readers' desires The author argues that the food trope in children's literature actually teaches children how to be human through the imperative to eat good food in a proper controlled manner Examining timely topics such as childhood obesity and anorexia the author demonstrates how children's literature routinely attempts to regulate childhood eating practices and only award subjectivity and agency to those characters who demonstrate normal appetites Examining a wide range of children's literature classics from Little Red Riding Hood to The Lion the Witch and the Wardrobe this book is an outstanding and unique enquiry into the function of food in children's literature and it will make a significant contribution to the fields of both children's literature and the growing interdisciplinary domain of food culture and society *Transatlantic Intellectual Networks, 1914-1964* Hans Bak, Céline Mansanti, 2019-11-13 The twelve essays in this book by scholars from the

U S France Germany the Netherlands and the Czech Republic offer new transnational perspectives in transatlantic historical literary and cultural studies They explore the special role of American and European intellectuals as agents of transatlantic cultural transfer and examine the mechanisms and instruments through which artists writers and intellectuals communicated across oceans and national borders in the half century between 1914 and 1964 Their focus is on transatlantic networks and the instruments of culture through which such networks become operative as sites of cross cultural exchange circulation and interaction magazines caf s publishing houses book fairs agents translators and mediators and last but not least transatlantic personal friendships Contending that the dynamics of transatlantic cultural transfer need to be understood as reciprocal and multi directional they also exemplify the shift within transatlantic intellectual history from a traditional concern with European U S relations to a multidirectional triangular exploration of cultural political and intellectual relations between Europe the United States and Latin America Alice in Space Gillian Beer,2016-11-30 The award winning literary critic takes readers down the rabbit hole of Victorian cultural and intellectual influences on Lewis Carroll s Alice books In Alice s Adventures in Wonderland and Through the Looking Glass Lewis Carroll created fantastic worlds that continue to live in the minds of readers today Carroll conceived his Alice books during the 1860s a time of intense intellectual upheaval as new scientific linguistic educational and mathematical ideas flourished around the world Alice in Space explores these historic currents revealing essential context for Carroll s jokes concerns and hidden references Parody and Punch evolutionary debates philosophical dialogues educational works for children math and logic manners and rituals dream theory and childhood studies all fueled the fireworks of Carroll s restless imagination In this lively investigation Gillian Beer convincingly shows him at play in the spaces of Victorian cultural and intellectual life drawing on then current controversies reading prodigiously across many fields and writing on multiple levels to please both children and adults in different ways With a welcome combination of learning and lightness Beer reminds us that Carroll s books are essentially about the risks and pleasures of curiosity Along the way Alice in Space shares Alice s exceptional ability to spark curiosity in us too Food, Glorious Food Nadine Jacobs,2022-10-25 A fascinating breakdown of the complexities of food pathologies and an exploration of their depths and underlying archetypes In the last century food has become a multibillion dollar industry resulting in the world s population becoming fatter and fatter This has resulted in rapidly growing cases of obesity and its accompanying health conditions such as diabetes hypertension and heart problems Food Glorious Food will explore the origins of the importance of food in our society and through a Jungian lens what it is about food that drives us as a society beyond the point of satiety The book also explores the culture symbols of the unconscious narrative around food using Lewis Carroll s Alice in Wonderland as a text to further illustrate this Of Sex and Faerie: further essays on Genre Fiction John Lennard,2010 Taking up where *Of Modern Dragons* 2007 left off these essays continue Lennard s investigation of the praxis of serial reading and the best genre fiction of recent decades including work by Bill James Walter Mosley Lois McMaster Bujold and

Ursula K Le Guin There are groundbreaking studies of contemporary paranormal romance and of Hornblower's transition to space while the final essay deals with the phenomenon and explosive growth of fanfiction and with the increasingly empowered status of the reader in a digital world There is an extensive bibliography of genre and critical work with eight illustrations John Lennard is Director of Studies at Hughes Hall Cambridge and has also taught for the Universities of London Notre Dame and for the Open University and was Professor of British American Literature at the University of the West Indies Mona 2004 09 Of Modern Dragons and other essays on genre fiction 2007 is also available from Lulu

Popular Victorian women writers Kay Boardman, Shirley Jones, 2024-07-30 Popular Victorian women writers considers a diverse group of women writers within the Victorian literary marketplace It looks at authors such as Ellen Wood Mary Braddon Rhoda Broughton and Charlotte Yonge as well as less well known writers including Jessie Fothergill and Eliza Meteyard Each essay sets the individual author within her biographical and literary context and provides refreshing insights into their work Together they bring the work of largely unknown authors and new perspectives on known authors to critical and public attention Accessible and informative the book is ideal for students of Victorian literature and culture as well as tutors and scholars of the period

The Place of Lewis Carroll in Children's Literature Jan Susina, 2013-02-01 In this volume Jan Susina examines the importance of Lewis Carroll and his popular Alice books to the field of children's literature From a study of Carroll's juvenilia to contemporary multimedia adaptations of Wonderland Susina shows how the Alice books fit into the tradition of literary fairy tales and continue to influence children's writers In addition to examining Carroll's books for children these essays also explore his photographs of children his letters to children his ill fated attempt to write for a dual audience of children and adults and his lasting contributions to publishing The book addresses the important but overlooked facet of Carroll's career as an astute entrepreneur who carefully developed an extensive Alice industry of books and non book items based on the success of Wonderland while rigorously defending his reputation as the originator of his distinctive style of children's stories

Twice-Told Children's Tales Betty Greenway, 2013-09-13 It is only in childhood that books have any deep influence on our lives Graham Greene The luminous books of our childhood will remain the luminous books of our lives Joyce Carol Oates Writers as they often attest are deeply influenced by their childhood reading Salman Rushdie for example has said that The Wizard of Oz made a writer of me Twice Told Tales is a collection of essays on the way the works of adult writers have been influenced by their childhood reading This fascinating volume includes theoretical essays on Salman Rushdie and the Oz books Beauty and the Beast retold as Jane Eyre the childhood reading of Jorge Luis Borges and the remnants of nursery rhymes in Sylvia Plath's poetry It is supplemented with a number of brief commentaries on children's books by major creative writers including Maxine Hong Kingston and Maxine Kumin

The Publishers Weekly, 1997

The Victorian Newsletter, 1998

Anti-Tales David Calvin, Catriona McAra, 2011-05-25 The anti fairy tale has long existed in the shadow of the traditional fairy tale as its flipside or evil twin According to Andr Jolles in *Einfache Formen* 1930

such Antim rchen are contemporaneous with some of the earliest known oral variants of familiar tales While fairy tales are generally characterised by a spirit of optimism Tolkien the anti tale offers us no such assurances for every happily ever after there is a dissenting they all died horribly The anti tale is however rarely an outright opposition to the traditional form itself Inasmuch as the anti hero is not a villain but may possess attributes of the hero the anti tale appropriates aspects of the fairy tale form and its equivalent genres and re imagines subverts inverts deconstructs or satirises elements of these to present an alternate narrative interpretation outcome or morality In this collection Little Red Riding Hood retaliates against the wolf Cinderella s stepmother provides her own account of events and Snow White evolves into a postmodern vampire tale The familiar becomes unfamiliar revealing the underlying structures dynamics fractures and contradictions within the borrowed tales Over the last half century this dissident tradition has become increasingly popular inspiring numerous writers artists musicians and filmmakers Although anti tales abound in contemporary art and popular culture the term has been used sporadically in scholarship without being developed or defined While it is clear that the aesthetics of postmodernism have provided fertile creative grounds for this tradition the anti tale is not just a postmodern phenomenon rather the postmodern fairy tale is only part of the picture Broadly interdisciplinary in scope this collection of twenty two essays and artwork explores various manifestations of the anti tale from the ancient to the modern including romanticism realism and surrealism along the way

British Children's Literature of the 19th Century Patrick C. Fleming, 2025-02-13 Many beloved classics of children s literature including Alice s Adventures in Wonderland Peter Pan and The Tale of Peter Rabbit were written at the end of the nineteenth century an era known as the Golden Age of children s literature Notable figures like William Godwin Harriet Martineau Christina Rossetti and Charles Dickens contributed to children s literature while juvenile periodicals first appeared to young readers during this time This is the first comprehensive reference work about the Golden Age of children s literature and the emergence of juvenile literature as a major publishing phenomenon Alphabetical entries include foundational figures like Sarah Trimmer Maria Edgeworth and Mary Martha Sherwood who helped establish the market for children s literature New genres for the time like the moral tale religious fiction children s poetry school stories and prolific authors like Hesba Stretton L T Meade and G A Henty are also included

Revisiting Imaginary Worlds Mark Wolf, 2016-12-08 The concept of world and the practice of world creation have been with us since antiquity but they are now achieving unequalled prominence In this timely anthology of subcreation studies an international roster of contributors come together to examine the rise and structure of worlds the practice of world building and the audience s reception of imaginary worlds Including essays written by world builders A K Dewdney and Alex McDowell and offering critical analyses of popular worlds such as those of Oz The Lord of the Rings Star Trek Star Wars Battlestar Galactica and Minecraft Revisiting Imaginary Worlds provides readers with a broad and interdisciplinary overview of the issues and concepts involved in imaginary worlds across media platforms
