Alternative

and Activist New Media Leah Lievrouw, 2011-02-14 A rich and accessible overview of the ways in which activists artists and citizen groups around the world use new media and information technologies to gain visibility and voice present alternative or marginal views share their own DIY information systems and content and otherwise resist talk back to or confront dominant media culture *The Alternative Media Handbook* Kate Coyer, Tony Dowmunt, Alan Fountain, 2007-12-27 This book offers an overview of global alternative media activity before moving on to provide information about alternative media production and how to get involved in it *Alternative Media and Politics of Resistance* Joshua D. Atkinson, 2010 Scholars of journalism and media studies have illustrated the production of alternative media as a means for activists to generate dissent while communication scholars have examined activists performances and image events as challenges to dominant power structures The approaches of both fields have contributed to academic understanding of social movements in modern society but until now their findings have emerged separate from one another This book brings together both lines of research and demonstrates the role of alternative media in the performance of resistance against power structures by contemporary activists Specifically the book explores the role of alternative media in the establishment of activist networks in local communities the role of alternative media in the construction of strategies of resistance by networked activists and the role of interactivity between local and global networks in production of alternative media content The book is suitable for undergraduate and graduate courses concerning social movements within the fields of communication media and journalism

Activist Media Gino Canella, 2022-05-23 Now more than ever activists are using media to document injustice and promote social and political change Yet with so many media platforms available activists sometimes fail to have a coherent media and communication strategy Drawing from his experiences as a documentary filmmaker with Black Lives Matter 5280 and Service Employees International Union SEIU Local 105 in Denver Colorado Gino Canella argues that activist media create opportunities for activists to navigate conflict and embrace their political and ideological differences Canella details how activist media practices interviewing organizers script writing video editing posting on social media and hosting community screenings foster solidarity among grassroots organizers Informed by media theory this book explores how activists are using media to mobilize supporters communicate their values and reject anti union rhetoric Furthermore it demonstrates how collaborative media projects can help activists build broad based coalitions and amplify their vision for a more equitable and just society **Alternative Media in Canada** Kirsten Kozolanka, Patricia Mazepa, David Skinner, 2012-04-01 Alternative media hold the promise of building public awareness and action against the constraints and limitations of media conglomeration and cutbacks to public broadcasting But what exactly makes alternative media alternative This path breaking volume gets to the heart of this question by focusing on the three interconnected dimensions that define alternative media in Canada structure participation and activism The contributors reveal not only how various kinds of alternative media including indigenous anarchist ethnic and feminist media are enabled and constrained within

Canada's complex policy environment but also how in the context of globalization the Canadian experience parallels media and policy challenges in other nations

Beyond Mainstream Media Stephen Cushion, 2023-09-26 Offering one of the most comprehensive assessments of alternative media to date Beyond Mainstream Media examines the rise of alternative media over the last decade analysing their changing content and editorial strategies and exploring why many people go beyond the mainstream media for news and information Considering the differences in agenda between alternative and mainstream media coverage Cushion sheds light on why right wing alternative media have become a more prominent part of national media systems than left wing sites in the Western World In doing so he argues that alternative left wing media should place less emphasis on attacking professional journalism and focus more on converging into the world of mainstream news to promote their politics This book draws on over 3 500 articles and 17 000 social media posts produced by alternative media extensive interviews with editors and contributors and a survey of over 2 700 media users It develops a comparative international perspective by explaining how findings and concepts can be applied to understanding much broader issues such as public distrust in the mainstream media or the influence different media and political systems have on the production of alternative media Providing both an introduction to and a critical analysis of the state of alternative media today this book is written in clear jargon free language and is recommended reading for advanced students undertaking courses in Alternative Media and Political Journalism

Matrix Activism Michela Ardizzoni, 2016-11-03 The intersection of virtual and physical spaces at the heart of contemporary political protests is a pivotal element in new practices of activism In this new and global ecology of dissent and activism different forces stakeholders and spaces once defiantly discordant come together to define the increasingly malleable nature and terms of participatory politics and the performance of democracy This book explores the emerging sites aesthetics and politics of contemporary dissent as a critical attempt to foreground their mediation and negotiation in an era of neoliberal globalization Contemporary forms of media activism occupy deeply ambivalent spaces which Ardizzoni analyzes using the lens of what she calls matrix activism Rather than confining the analysis to a single platform a single technology or a single social actor matrix activism allows us to explain the hybrid nature of new forms of dissent and resistance as they are located at the intersection of alternative and mainstream non profit and corporate individual and social production and consumption online and offline
