C.L.R. James's Notes on Dialectics John H. McClendon, 2005-01-01 John H McClendon III's CLR James's Notes on Dialectics Left Hegelianism or Marxism Leninism is the first ever book devoted exclusively to James's magnum opus Notes on Dialectics Hegel Marx Lenin The seed for this study was planted over thirty years ago when James handed the author his personal copy of Notes James's contribution to dialectical philosophy and his vast intellectual and scholarly output is rivalled only by the seemingly bottomless depths of McClendon's own analysis and erudition McClendon provides a thorough going critique of James's exploration into the dialectic of Hegel Marx and Lenin while challenging all the seminal texts on James's Notes A book of this magnitude is rare This is ever more the truth when it is focused on a giant like James who stands at the nexus of so many disciplines philosophy history sociology Caribbean studies cultural studies African and African American studies CLR James's Notes on Dialectics Left Hegelianism or Marxism Leninism is a must read for anyone concerned with how revolutionary theory is a guide to contemporary struggles Concept and Form, Volumes 1 and 2 Peter Hallward, Knox Peden, 2014-01-28 Concept and Form is a two volume monument to the work of the philosophy journal the Cahiers pour l'Analyse 1966-69 the most ambitious and radical collective project to emerge from French structuralism Inspired by their teachers Louis Althusser and Jacques Lacan the editors of the Cahiers sought to sever philosophy from the interpretation of given meanings or experiences focusing instead on the mechanisms that structure specific configurations of discourse from the psychological and ideological to the literary scientific and political Adequate analysis of the operations at work in these configurations they argue helps prepare the way for their revolutionary transformation The first volume comprises English translations of some of the most important theoretical texts published in the journal written by thinkers who would soon be counted among the most inventive and influential of their generation The second volume collects newly commissioned essays on the journal together with recent interviews with people who were either members of its editorial board or associated with its broader theoretical project Contributors include Alain Badiou tienne Balibar Edward Baring Jacques Bouveresse Yves Duroux Alain Grosrichard Peter Hallward Adrian Johnston Serge Leclaire Patrice Maniglier Tracy McNulty Jacques Alain

arms such as Che Guevara Rudi Dutschke and Tariq Ali The book also yields fascinating details of the man's sometimes tragic private life Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture *The Loving Subject* Gerald A. Bond, 2016-11-11 Gerald Bond explores the rise of a new secular identity that took place in French elite culture at the turn of the twelfth century While the period is widely recognized as pivotal and much revisionary work has been done on it Bond notes that in order to see the changes in the conception of the private secular self the focus must be shifted away from epics and saints lives the traditional targets of literary inquiry to lyric letters and marginal texts and images Such texts and images can be found at regional courts reasonably independent of the weak and limited monarchy and at schools far removed from the traditional Christian curriculum where a new and distinctly secular group contested inherited values of class gender and person and created distinct patterns and codes of dress behavior talk and pleasure Translating and using sources that for the most part have never been explored Bond examines the Bayeux Tapestry and such figures as Marbod of Rennes Baudri of Bourgueil William of Poitiers and Adela of Blois to frame a complex view of the contested reconception of the secular self and its value

Ideology Terry Eagleton, 2024-05-14 Ideology has never before been so much in evidence as a fact and so little understood as a concept as it is today In this now classic work originally written for both students and for those already familiar with the debates around the concept the celebrated literary theorist Terry Eagleton unravels its many definitions exploring its tortuous history from the Enlightenment to the present A limpid account of the thought of key Marxist thinkers as well as that of philosophers from Schopenhauer and Nietzsche to Freud and the post structuralists and a political reformulation of a vital set of ideas Ideology An Introduction is an essential text by one of our most important contemporary

critics Althusser and Law Laurent de Sutter, 2013-03-05 Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy The growing importance of Althusser's philosophy in contemporary debates on the left has for practical and political as well theoretical reasons made a sustained consideration of his conception of law more necessary than ever As a form of what Althusser called Ideological State Apparatuses law is at the forefront of political struggles from the destruction of Labour Law to the exploitation of Patent Law from the privatisation of Public Law to the ongoing hegemony of Commercial Law and from the discourse on Human Rights to the practice of judicial courts Is Althusser still useful in helping us to understand these struggles Does he have something to teach us about how law is produced and how it is used and misused This collection demonstrates that Althusser's ideas about law are more important and more contemporary than ever Indeed the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life **Projecting Illusion** Richard Allen, 1995 On cinema and illusion
