**Character Counts** Michael Glenn Maness,2010-12      **Focus On: 100 Most Popular 20Th-century American Politicians** Wikipedia contributors,      The Ruling Elite Deanna Spingola,2011-04-14 Lincoln s war the North s attack on the South took the life of 622 000 citizens and altered the government s structure Marx and Engels watched the war from afar and applauded his efforts The media and our government controlled schools have presented a deceptive view of every historical event and have whitewashed the most scandalous political leaders and vilified leaders who have worked in the best interests of the people Following Lincoln s precedent setting war we have been repeatedly lied into wars Currently our young men and women shed their blood in foreign lands while well connected corporations make massive profits rebuilding the infrastructure that other corporations have demolished Meanwhile our politicians possessing inside knowledge grow richer through their investments and the bribes they accept from deep pocketed lobbyists They have not listened to their constituents for decades CIA thugs in behalf of the corporations commit terrorist acts in other countries which the U S government and media blame on the so called insurgents In 2010 the Pentagon paid the following to the top five out of 100 1 Lockheed Martin Corp 16 700 588 328 2 Northrop Grumman Corp 11 145 533 497 3 Boeing Co 10 462 626 196 4 Raytheon Co 6 727 232 555 5 Science Applications International Corp 5 474 482 583 Yet throughout the country vital infrastructure is crumbling and politicians are selling taxpayer funded public properties to private interests as a profitable venture The new owners exploit the public by raising service rates while diminishing the services      *Invoking the Beyond*: Paul D. Collins,Phillip D. Collins,2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond      **The Better Angels of Our Nature** Michael A. Halleran,2010-03-11 The first in depth study of the Freemasons during the Civil War From first person accounts culled from regimental histories diaries and letters Michael A Halleran has constructed an overview of 19th century

Michael Thornton, 2014 The author takes a look at two very influential Pentecostal Holiness revivalists from Sampson County North Carolina in the early 20th century Both rose in their churches founded new churches and then fell away from their churches but left a profound impact on the the role of Christianity in overcoming racial inequalities **Hero of Fort Schuyler** Peter Gansevoort, Jr., 2014-10-02 In August 1777 Peter Gansevoort Jr defended Fort Schuyler also known as Fort Stanwix during a three week siege by 1 700 British soldiers Tories and Indians commanded by Colonel Barry St Leger Gansevoort won the distinction of successfully resisting a British siege in a period when every other continental post in New York was either evacuated or surrendered His valiant effort led to the American victory at the Battle of Saratoga a crucial point of the war Born to an affluent Dutch family in Albany County New York Gansevoort was active in several theaters of Revolutionary War operations including General Montgomery's Canadian campaign 1775 the Champlain Hudson Mohawk Valley defense against Burgoyne's northern invasion 1776 1777 the Sullivan Clinton campaign 1779 and the New York Vermont insurrection 1781 After the war he was active in both military and civic arenas rising to the position of brigadier general of the U S Army in 1809 Before his death he presided over General James Wilkinson's court martial in 1811 This documentary edition provides 279 pieces of correspondence to and from Gansevoort and a few others from 1775 to 1812 **10,000 Famous Freemasons** William R. the legacy of colonial history and the nature of reception as the process of understanding and valuing the past and its surviving material and immaterial culture

**From Frechet Differentials to Firing Tables** Alan Gluchoff, 2025-01-03 This monograph explores the history of the contribution to ballistics by the American mathematician Gilbert Ames Bliss during World War I Drawing on the then evolving calculus of variations Bliss pioneered a novel technique for solving the problem of differential variations in ballistic trajectory Called Bliss adjoint method this technique was both hailed and criticized at the time it was seen as both a triumphant application of pure mathematics to an applied problem and as a complex intrusion of higher mathematics into the jobs of military personnel not particularly interested in these matters Although he received much praise immediately after the War the details of Bliss work its furthering of pure mathematical thought and its absorption into mainstream ballistic work and instruction have never been adequately examined Gluchoff explores the mathematics of Bliss work and the strands from which his technique was developed He then documents the efforts to make the adjoint method accessible to military officers and the conflicts that emerged as a result both between mathematicians and officers and among mathematicians themselves The eventual absorption of the adjoint method into range firing table construction is considered by looking at later technical books which incorporate it and finally its influence on the ongoing development of functional calculus is detailed From Frechet Differentials to Firing Tables will appeal to historians of mathematics physics engineering and warfare as well as current researchers professors and students in these areas

*Transhumanism* David Livingstone, 2015-09-02 Transhumanism is a recent movement that extols man's right to shape his own evolution by maximizing the use of scientific technologies to enhance human physical and intellectual potential While the name is new the idea has long been a popular theme of science fiction featured in such films as 2001 A Space Odyssey Blade Runner the Terminator series and more recently The Matrix Limitless Her and Transcendence However as its adherents hint at in their own publications transhumanism is an occult project rooted in Rosicrucianism and Freemasonry and derived from the Kabbalah which asserts that humanity is evolving intellectually towards a point in time when man will become God Modeled on the medieval legend of the Golem and Frankenstein they believe man will be able to create life itself in the form of living machines or artificial intelligence Spearheaded by the Cybernetics Group the project resulted in both the development of the modern computer and MK Ultra the CIA's mind control program MK Ultra promoted the mind expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the Tree of Knowledge And as revealed in the movie Lucy through the use of smart drugs and what transhumanists call mind uploading man will be able to merge with the Internet which is envisioned as the end point of Kabbalistic evolution the formation of a collective consciousness or Global Brain That awaited moment is what Ray Kurzweil a director of engineering at Google refers to as The Singularity By accumulating the total of human knowledge and providing access to every aspect of human activity the Internet will supposedly achieve omniscience becoming the God of occultism or the Masonic All Seeing Eye of the reverse side of the American dollar bill
