100 Decisive Battles Paul K. Davis, 2001 Surveys the one hundred most decisive battles in world history from the Battle of Megiddo in 1469 B C to Desert Storm 1991 **100 Decisive Battles** Paul K. Davis, 2003 Surveys the one hundred most decisive battles in world history from the Battle of Megiddo in 1469 B C to Desert Storm 1991 Ten in Time Patricia Hall Guthrie, 2010-09 When they went to school that day the ten children had no idea that their lives were about to be drastically changed or that they would be transported into the Middle Ages and end up in the midst of a battle that would change world history Constantinople under siege by the Turks was about to fall Cannons would fire ships would burn screams of charging Turks would fill their ears Follow the students as they encounter the famous Italian soldier Guistiniani and as they fight by his side Meet courageous Emperor Constantine XI who though hugely outnumbered fought the Turks to the death to protect his city Could the children help save the city which the Roman emperor Constantine I had named for himself and which so long had stood as a bastion of Christianity What was the purpose of their sudden arrival there Would their faith stand the test Would they ever get home Patricia Pat Guthrie a former teacher who has taught in public private and home school situations has always loved writing Over the years she has written poems short stories book length stories research papers and newspaper articles Serving as an educational missionary in Brazil with her husband Weston Pat has had rich and varied experiences in her lifetime for which she is grateful to God Loving and serving young people during her husband's ministry as a Presbyterian pastor was a great joy to her providing lasting friendships In 2002 Pat helped found the classical Christian school Covenant Christian Academy in Max Meadows Virginia where she taught a variety of courses over a seven year period She has three grown children and four grandsons and now lives with her husband in her hometown of Pulaski Virginia

Battle 100 Michael Lee Lanning, 2005-04-01 A single day in the heat of armed conflict can shape the future of the world Throughout history individual battles have inspired the birth of nations the devastation of cultures and the triumph of revolutions Yet while some battles rise up as the cornerstones of history others fade in our cultural memory forgotten as minor skirmishes Why is this so What makes a battle important Celebrated veteran and military expert Michael Lee Lanning offers a provocative response with *The Battle 100 The Stories Behind History's Most Influential Battles* Lanning ranks history's 100 greatest battles according to their influence both immediate and long term Thought provoking and controversial Lanning's rankings take us to the heart of the battles and reveal their true greatness World Battles and Their Leaders Who Changed Global History Walter J. Whittemore, 2008 A quick reference in world history for junior senior and if necessary for college students Page v The Allure of Battle Cathal Nolan, 2017-01-02 History has tended to measure war's winners and losers in terms of its major engagements battles in which the result was so clear cut that they could be considered decisive Cannae Konigsberg Austerlitz Midway Agincourt all resonate in the literature of war and in our imaginations as tide turning But these legendary battles may or may not have determined the final outcome of the wars in which they were fought

Nor has the genius of the so called Great Captains from Alexander the Great to Frederick the Great and Napoleon play a major role Wars are decided in other ways Cathal J Nolan s *The Allure of Battle* systematically and engrossingly examines the great battles tracing what he calls short war thinking the hope that victory might be swift and wars brief As he proves persuasively however such has almost never been the case Even the major engagements have mainly contributed to victory or defeat by accelerating the erosion of the other side s defences Massive conflicts the so called people s wars beginning with Napoleon and continuing until 1945 have consisted of and been determined by prolonged stalemate and attrition industrial wars in which the determining factor has been not military but material Nolan s masterful book places battles squarely and mercilessly within the context of the wider conflict in which they took place In the process it help corrects a distorted view of battle s role in war replacing popular images of the battles of annihilation with somber appreciation of the commitments and human sacrifices made throughout centuries of war particularly among the Great Powers Accessible provocative exhaustive and illuminating *The Allure of Battle* will spark fresh debate about the history and conduct of warfare *Battlefields from Event to Heritage* John Carman, Patricia Carman, 2020 What is or makes a place a historic battlefield Treating battles as events in the past and battlefields as places in the present and drawing on examples from prehistory to the 20th century this book exposes the complexity of the concept of a historic battlefield and how it forms part of a Western understanding of the world **The Army Lawyer** , 2005 Last Stone Standing Maxwell Graham, 2012-03 The focus of Christianity is Jesus Christ yet for many he has been displaced by focusing on religious practices that were unknown to the early church The question is Why If a time travelling first century Christian visited a church service today he would immediately recognize most of what we do However he would recognize it as part of the pagan world that he as a Christian had been called out of He would probably turn tail and head for the exit while thanking Jesus that he no longer needed any of that We on the other hand do connect all these things to our Christian experience in the twenty first century Where we have a problem is in seeing how they connect to the church of the first century That is why this book is subtitled Why Do We Do It The Way We Do Against a backdrop of world events from the earliest days to the present *Last Stone Standing* lays out how the church came into being and how many of the accepted practices of today became entrenched within it **The Jewish Revolts Against Rome, A.D. 66-135** James J. Bloom, 2014-01-10 During the first and second centuries A D the supremacy of the Roman Empire was aggressively challenged by three Jewish rebellions The facts surrounding the initial uprising of A D 66 74 have been filtered through the biased accounts of Judean Roman historian Flavius Josephus Primary information regarding the subsequent Diaspora Revolt A D 115 117 and the Bar Kochba Rebellion A D 132 135 is limited to fragmentary anecdotes emphasizing the religious implications of the two insurrections In contrast this analytical history focuses objectively on the military aspects of all three Judean uprisings The events leading up to each rebellion are detailed while the nine appendices cover such topics as the nature and number of the Jewish rebels and the factual reliability of the controversial Josephus One

appendix hypothesizes an alternative history of the war between Jerusalem and Rome **Thermopylae** Chris Carey,2019
 The story of Thermopylae the famous last stand of the Greco Persian Wars how it was fought how it has been remembered
 and what it has come to mean **Vitalist Modernism** Fae Brauer,2023-02-28 This book reveals how when where and why
 vitalism and its relationship to new scientific theories philosophies and concepts of energy became seminal from the fin de si
 cle until the Second World War for such Modernists as Sophie Taeuber Arp Hugo Ball Juliette Bisson Eva Carri re Salvador
 Dal Robert Delaunay Marcel Duchamp Edvard Munch Picasso Yves Tanguy Gino Severini and John Cage For them Vitalism
 entailed the conception of life as a constant process of metamorphosis impelled by the free flow of energies imaginings
 intuition and memories unconstrained by mechanistic materialism and chronometric imperatives to generate what the
 philosopher Henri Bergson aptly called Creative Evolution Following the three main dimensions of Vitalist Modernism the
 first part of this book reveals how biovitalism at the fin de si cle entailed the pursuit of corporeal regeneration through
 absorption in raw nature wholesome environments aquatic therapies electromagnetism heliotherapy modern sports
 particularly rugby water sports the Olympic Games and physical culture to energize the human body and vitalize its life force
 This is illuminated by artists as geoculturally diverse as Gustave Caillebotte Thomas Eakins Munch and Albert Gleizes The
 second part illuminates how simultaneously Vitalism became aligned with anthroposophy esotericism magnetism occultism
 parapsychology spiritism theosophy and what Bergson called psychic states alongside such new sciences as
 electromagnetism radiology and the Fourth Dimension as captured by such artists as Juliette Bisson Giacomo Balla Albert
 Besnard Umberto Boccioni Eva Carri re John Gerrard Keulemans L szl Moholy Nagy James Tissot Albert von Schrenck
 Notzing and Picasso During and after the devastation of the First World War the third part explores how Vitalism particularly
 Bergson s theory of becoming became associated with Dadaist Neo Dadaist and Surrealist notions of amorality atemporality
 dysfunctionality entropy irrationality inversion negation and the nonsensical captured by Hans Arp Charlie Chaplin Theo Van
 Doesburg Kazimir Malevich Kurt Schwitters and Vladimir Tatlin alongside Cage s concept of Nothing After investigating the
 widespread engagement with Bergson s philosophies and Vitalism and art by Anarchists Marxists and Communists during
 and after the First World War it concludes with the official rejection of Bergson and any form of Vitalism in the Soviet Union
 under Stalin This book will be of vital interest to gallery exhibition and museum curators and visitors plus readers and
 scholars working in art history art theory cultural studies modernist studies occult studies European art and literature health
 histories of science philosophy psychology sociology sport studies heritage studies museum studies and curatorship *The
 Verdict of Battle* James Q. Whitman,2012-10-22 Slaughter in battle was once seen as a legitimate way to settle disputes When
 pitched battles ceased to exist the law of victory gave way to the rule of unbridled force Whitman explains why ritualized
 violence was more effective in ending carnage and why humanitarian laws that view war as evil have led to longer more
 barbaric conflicts *Winning at War* Christian P Potholm,2023-06-14 What are the independent variables that determine

success in war Drawing on 40 years of studying and teaching war political scientist Christian P Potholm presents a template of Mars seven variables that have served as predictors of military success over time and across cultures In *Winning at War* Potholm explains these variables_ technology sustained ruthlessness discipline receptivity to innovation protection of military capital from civilians and rulers will and the belief that there will always be another war_ and provides case studies of their implementation from ancient battles to today Victory Cian O'Driscoll,2020 This book examines the way in which the concept of victory has been treated in just war thinking the predominant discourse in the western world for thinking about the rights and wrongs of war

A Warrior Dynasty Henrik O. Lunde,2014-09-10 A historian reveals the surprising role that seventeenth century Sweden played in shaping Western history There has been a recent trend in history to interpret the rise and fall of great powers in terms of economics demographics or geography But sometimes pure military skill can propel a nation to prominence if it is simply able to crush all its opponents on a battlefield No better example arises than that of Sweden beginning in the seventeenth century holding supremacy over northern Europe for a century without any technological geographic or demographic advantages at all This fascinating book describes how the Swedes first arrived in continental Europe during the Thirty Years War under their king Gustavus Adolfus Just in time to roll back the reactionary Catholic tide and buttress the Lutherans the Swedes proved more innovative in battle than their opponents using the new arm of artillery plus tactical formations to establish supremacy on the battlefield This horrific war still exists in collective memory as the worst travail in German history even worse than the world wars however along with the salvation of Protestantism the emergence of the Swedes as a power to be reckoned with meant new geopolitical complications for the existing powers of Europe Adolfus was eventually killed in battle but a successor Charles XII renewed Swedish aggression this time for the object of conquest as he found that no army on the continent could stand against his legions from the north As later military leaders would find however the conquest of Russia comprised a considerable overreach and Charles was eventually trapped and defeated deep in Ukraine at Poltava In this work renowned military historian Henrik O Lunde unveils a fascinating chapter in the foundation of Western history that is often overlooked by English speaking readers

The Rise of Western Power Jonathan Daly,2013-12-19 The West s history is one of extraordinary success no other region empire culture or civilization has left so powerful a mark upon the world The Rise of Western Power charts the West s achievements representative government the free enterprise system modern science and the rule of law as well as its misdeeds two frighteningly destructive World Wars the Holocaust imperialistic domination and the Atlantic slave trade Adopting a global perspective Jonathan Daly explores the contributions of other cultures and civilizations to the West s emergence Historical geographical and cultural factors all unfold in the narrative Adopting a thematic structure the book traces the rise of Western power through a series of revolutions social political technological military commercial and industrial among others The result is a clear and engaging introduction to the history of Western civilization

Rethinking Military History Jeremy

Black, 2004 *Rethinking Military History* is a bold new thought book that reconsiders military history at the beginning of the twenty first century. The chapters provide a valuable and concise survey of the main themes in the study of military history from 1500 to the present day as Jeremy Black reveals the main trends in the practice and approach to military history and proposes a new manifesto for the subject to move forward. This must read study demonstrates the limitations of current approaches including common generalizations, omissions and over simplifications. Engaging theoretical discussions with reference to specific conflicts suggest how these limitations can be remedied and adapted whilst incorporating contributions from other disciplines. *Rethinking Military History* is essential reading for all those with an interest in military history and all who wish to take part in moving the discipline forward.

The Battle of Marathon Peter Krentz, 2010-09-07 How did the city state of Athens defeat the invaders from Persia, the first world empire, on the plain of Marathon in 490 BCE? Clever scholars skeptical of our earliest surviving source, Herodotus, have produced one ingenious theory after another. In this stimulating new book, bound to provoke controversy, Peter Krentz argues that Herodotus was right after all. Beginning his analysis with the Athenians' first formal contact with the Persians in 507 BCE, Krentz weaves together ancient evidence with travelers' descriptions, archaeological discoveries, geological surveys and the experiences of modern reenactors and soldiers to tell his story. Krentz argues that before Marathon the Athenian army fought in a much less organized way than the standard view of the hoplite phalanx suggests: as an irregularly armed mob rather than a disciplined formation of identically equipped infantry. At Marathon the Athenians equipped all their fighters, including archers and horsemen, as hoplites for the first time. Because their equipment weighed only half as much as is usually thought, the Athenians and their Plataean allies could charge almost a mile at a run, as Herodotus says they did. Krentz improves on this account in Herodotus by showing why the Athenians wanted to do such a risky thing.
