The Complete Guide to Endurance Riding and Competition Donna Snyder-Smith,2008-05-05

First Star to the Right and Straight on Till Morning At the 90 mile vet check she sat in the middle of the road crying claiming extreme illness and trying to avoid her nightmarish fears her horse would die of founder or colic or anything The last ten miles of trail stretched forever in her mind black like licorice taffy After a large measure of TLC from her patient and understanding crew she and the gelding were out of the check and on the trail again The entire universe shrank to center on the pair in the moonlight Time stopped and the world faded into nothingness They were running in a small ever changing pocket of existence the rhythm of his hooves the heartbeat of that universe Ribbons and trail appeared before them and lost substance as they moved past For the rider clinging to the saddle there was no thought no pain no emotion only the instinctive drive to chase past each ribbon as it appeared Suddenly her horse jumped sideways eyes and ears frozen forward Awakened from her trance she oriented herself on his suspected woods troll a familiar embankment that meant they were a half mile from home Easing him past the scary object she sent the gelding on clinging to his neck As his soft lope swept them across the finish line she wanted to laugh out loud or cry but was unable to summon the strength for either A few small tears trickled down her cheek the only sign of the enormous pride she felt inside

Waran,2007-07-24 Animal welfare is attracting increasing interest worldwide but particularly from those in developed countries who now have the knowledge and resources to be able to offer the best management systems for their farm animals as well as potentially being able to offer plentiful resources for companion zoo and laboratory animals The increased attention given to farm animal welfare in the West derives largely from the fact that the relentless pursuit of financial reward and efficiency has led to the development of intensive animal production systems that challenge the conscience of many consumers in those countries In developing countries human survival is still a daily uncertainty so that provision for animal welfare has to be balanced against human welfare Welfare is usually provided for only if it supports the output of the animal be it food work clothing sport or companionship In reality there are resources for all if they are properly husbanded in both developing and developed countries The inequitable division of the world s riches creates physical and psychological poverty for humans and animals alike in all sectors of the world Livestock are the world s biggest land user FAO 2002 and the population is increasing rapidly to meet the need of an expanding human population Populations of farm animals managed by humans are therefore increasing worldwide and there is the tendency to allocate fewer resources to each animal Increased attention to welfare issues is just as evident for companion laboratory wild and zoo animals **The United States Pony Clubs Manual of Horsemanship** Susan E.
