 Marc S. Tucker,Judy B. Coddling,1998-01-23 This timely tough minded book shows how American public schools can be saved
 by instituting high standards for academic achievement Standards for Our Schools explains not just what the standards
 movement is about and why it is important but also what it will take to bring every student up to high standards no matter
 where that student starts The authors show how a single minded focus on achievement will change everything from the kinds
 of curriculum materials we use and the design of elementary and middle schools to the abandonment of the comprehensive
 high school and the institution of a diploma based on meeting standards rather than on attendance At the heart of this
 revolution are the performance standards themselves which provide clear expectations for student achievement by showing
 examples of standard setting student work Tucker and Coddling focus on empowering both students and adults by giving
 students the gift of high expectations and by giving school professionals the information skills authority and resources
 needed to do the job They advocate building a standards based instructional system creating a results oriented culture
 devoted to continuous improvement and making the institution and the people in it accountable for reaching the goals set by
 the standards This book lays out a step by step plan that will get struggling students to high standards as well as improve the
 performance of high achievers An extremely practical book it gives everyone involved in the education of our students the
 tools they need to do the job Standards for Our Schools will be the bible of standards based education and the foundation on
 which educators parents and policymakers can build the educational system of the future **Innovative Approaches in**
