conjunction with Dummett's own highly original ideas on truth and meaning have shaped decisive contemporary debates concerning notably the distinction between realism and anti-realism. Further, the volume includes a cheerfully serious excursion into popular philosophy by Dummett himself and reveals less known facets of Dummett's many-sided work and activities such as his political philosophy of immigration and asylum and beyond that his untiring and warm-hearted campaign for racial justice and humanity. Schiffman, 2020-10-26. This volume engages with antisemitic stereotypes as religious symbols that express and transmit a belief system of Jew-hatred. These religious symbols are stored in Christian, Muslim, and even today's secular cultural and religious memories. This volume explores how antisemitic religious symbol systems can play a key role in the construction of group identities. Arthur's Lady's Home Magazine, 1880 Arthur's Illustrated Home Magazine, 1880 The Encyclopædia Britannica Thomas Spencer Baynes, 1878 **The Biblical Companion: Or, An Introduction to the Reading and Study of the Holy Scriptures. Comprising a Comprehensive Digest of the Principles and Details of Biblical Criticism, Interpretation, Theology, History, Natural Science, Etc** William Carpenter (Editor of the Political Letter.), 1836 Interpretation in Architecture Adrian Snodgrass, Richard Coyne, 2013-05-13. Drawing on cultural theory, phenomenology, and concepts from Asian art and philosophy, this book reflects on the role of interpretation in the act of architectural creation, bringing an intellectual and scholarly dimension to real-world architectural design practice. For practising architects as well as academic researchers, these essays consider interpretation from three theoretical standpoints or themes: play, edification, and otherness. Focusing on these, the book draws together strands of thought informed by the diverse reflections of hermeneutical scholarship, the uses of digital media, and studio teaching and practice. *African Schools as Enabling Spaces* Vanessa Scherman, Linda Liebenberg, 2023-03-31. Using African schools as case studies, this book presents an implementation framework that can be used by schools internationally to drive social change and support their role as enabling spaces, allowing learners to thrive. Recognising the increase in demands, violent conflicts, lack of stability, and social strain prevalent within the current African school system, this book covers the challenges that negatively impact children's development by understanding and presenting a framework that ensures a holistic social and educational support system can be created for students. Featuring contributions from a broad range of leading scholars, the book ultimately addresses the critical need in academic and practice research for the importance of schools in building civil societies. Arguing for the importance of schools as places of stability, social inclusivity, and communities of care, this book will have direct relevance to academics, researchers, and postgraduate students in the field of education policy, international and comparative education, and character education. Those working in school leadership, management, and administration environments will
