Shinozuka, 2022-04-20 A rich and eye opening history of the mutual constitution of race and species in modern America In the late nineteenth century increasing traffic of transpacific plants insects and peoples raised fears of a biological yellow peril when nursery stock and other agricultural products shipped from Japan to meet the growing demand for exotics in the United States Over the next fifty years these crossings transformed conceptions of race and migration played a central role in the establishment of the US empire and its government agencies and shaped the fields of horticulture invasion biology entomology and plant pathology In *Biotic Borders* Jeannie N Shinozuka uncovers the emergence of biological nativism that fueled American imperialism and spurred anti Asian racism that remains with us today Shinozuka provides an eye opening look at biotic exchanges that not only altered the lives of Japanese in America but transformed American society more broadly She shows how the modern fixation on panic about foreign species

created a linguistic and conceptual arsenal for anti immigration movements that flourished in the early twentieth century Xenophobia inspired concerns about biodiversity prompting new categories of native and invasive species that defined groups as bio invasions to be regulated or annihilated By highlighting these connections Shinozuka shows us that this story cannot be told about humans alone the plants and animals that crossed with them were central to Japanese American and Asian American history The rise of economic entomology and plant pathology in concert with public health and anti immigration movements demonstrate these entangled histories of xenophobia racism and species invasions **New Orleans Coffee: A Rich History** Suzanne Stone with Contributions from David Feldman,2019 New Orleans history is steeped in coffee Outside the Cathedral of St Louis in Jackson Square early entrepreneurs like Old Rose provided eager churchgoers with the brew and it was sold in the French Market beginning in the late 1700s Caf du Monde and Morning Call started serving caf au lait more than a century ago People gathered for business socializing politics and auctions at five hundred coffee exchanges and shops in the 1800s Since 1978 myriad specialty coffee shops have opened to meet increasing demand for great coffee Author Suzanne Stone presents the full story of this celebrated tradition including how chicory became part of the city s special flavor **Catalog of Copyright Entries** Library of Congress.
