The Rise and Fall of a Medieval Family Kathryn

Warner, 2021-01-18 A historian's fascinating account of two centuries in the lives of the powerful Despensers famed for tragedy and scandal in medieval England. The Despensers were a baronial English family who rose to great prominence in the reign of Edward II 1307-27 when Hugh Despenser the Younger became the king's chamberlain, favorite and perhaps lover. He and his father Hugh the Elder wielded great influence and Hugh the Younger's greed and tyranny brought down a king for the first time in English history and almost destroyed his own family. *The Rise and Fall of a Medieval Family* tells the story of the ups and downs of this fascinating family from the thirteenth to the fifteenth centuries when three Despenser lords were beheaded and two fell in battle. We begin with Hugh Chief Justiciar of England who died rebelling against King Henry III and his son in 1265 and end with Thomas Despenser summarily beheaded in 1400 after attempting to free a deposed Richard II and Thomas's posthumous daughter Isabella a countess twice over and the grandmother of Richard III's queen. From the medieval version of Prime Ministers to the possible lovers of monarchs the aristocratic Despenser family wielded great power in medieval England. Drawing on the popular intrigue and infamy of the Despenser clan Kathryn Warner's book traces the lives of the most notorious powerful and influential members of this patrician family over a two hundred year span. *The*

Aerodromes Of Fighter Command Robin J Brooks, 2014-05-30 RAF Fighter Command was established in July 1936 to provide the airborne element in the defense of Britain against air attack. The aerodromes under the Command described in this book came under the control of several Groups: No 9 in the west, No 10 covering the south west, No 11 in the south east, No 12 on the eastern side of the country and Nos 13 and 14 protecting the extreme north. In this volume the activities of over 90 airfields are described and illustrated in our then and now theme both on the ground and from above. Many having served their purpose have returned to farmland leaving only odd vestiges to recall their former role as front line fighter stations. Others have succumbed to the encroachment of housing or industry or even been totally expunged from the map through mining activities. On the other hand a number have continued to be used as airfields either for sport or business flying and some continue as major airports with modern facilities. Sadly the post war years have witnessed the slow decline of the RAF presence at so many of their former bases, two having closed during our research for this book. And some have found a new lease of life with the Army or even the Ministry of Justice. All came into their own during the six years of war and the scars from that battle are still evident if one cares to look. Moldering buildings from the former era remain as poignant reminders.
