Of Mormon Numbers:

Mormon's Clues James Warr, 2006-03 This book is a must for the serious student of Book of Mormon geography Written with an outside the box approach it takes a new look at the subject and proposes new locations based upon the clues given by the book's prophets The author reasons that the primary clue would be the narrow neck of land and proposes a location for that landmark The remaining lands and cities are then located working out from this key point Proposals for the Jaredite lands are also made and the Jaredite and Nephite cultures compared and contrasted The important topics of distance direction and populations are discussed in a straight forward manner Where possible archeological sites are identified and correlated with the proposed geography A location for the Hill Cumorah is suggested and a novel method proposed for proving Book of Mormon sites The work is appropriately illustrated with helpful maps and charts A discussion of the various theories regarding Book of Mormon lands is also included **Foundational Texts of Mormonism** Mark

Ashurst-McGee, Robin Scott Jensen, Sharalyn D. Howcroft, 2018 Joseph Smith founding prophet and martyr of the Church of Jesus Christ of Latter day Saints personally wrote dictated or commissioned thousands of documents Among these are several highly significant sources that scholars have used over and over again in their attempts to reconstruct the founding era of Mormonism usually by focusing solely on content without a deep appreciation for how and why a document was produced This book offers case studies of the sources most often used by historians of the early Mormon experience Each chapter takes a particular document as its primary subject considering the production of a document as an historical event in itself with its own background purpose circumstances and consequences The documents are examined not merely as sources of information but as artifacts that reflect aspects of the general culture and particular circumstances in which they were created This book will help historians working in the founding era of Mormonism gain a more solid grounding in the period's documentary record by supplying important information on major primary sources *International Journal of Religion - Volume 1, Number 1 - November 2020* Jeffrey Haynes, Ahmet Erdi Ozturk, Eric M.
