The Book of the Foundation of Walden Monastery, 1999-08-19 The monastery of Walden was founded c 1136 by Geoffrey de Mandeville a prominent baron in the civil war of Stephen's reign Its site just outside the town of Saffron Walden in Essex is now occupied by the great Jacobean mansion known as Audley End House The Book of the Foundation of Walden Monastery written by a Walden monk soon after 1203 is here printed in its entirety for the first time This lively narrative relates the history of the Mandeville earls of Essex and the inheritance of their lands and title by King John's justiciar Geoffrey fitz Peter The monk author describes the development of the priory at Walden and its elevation to the status of a Benedictine abbey in 1190 and in the final section of the work he traces the consequent conflict with Geoffrey fitz Peter concluding the story with the death of Abbot Reginald in 1200 or 1203 The interest of The Book of the Foundation of Walden Monastery extends far beyond the local the editors introduction and notes establish its position as a valuable historical source The Book of the Foundation of Walden Monastery Diana Greenway, Leslie Watkiss, 2022 This lively narrative written by a monk relates the history of the abbey of Saffron Walden from its foundation around 1136 to the year 1203

History of the Abbey of Evesham Thomas (of Marlborough, Abbot of Evesham), 2003 The Evesham History is one of the last important 13th century texts to be translated Monasticon Anglicanum...a History of the Abbies and Other Monasteries...and Cathedral and Collegiate Churches...in England and Wales William Dugdale, 1846 The Anarchy Oliver Hamilton Creighton, Duncan W. Wright, 2016 The first ever archaeologically based study of the turbulent period of English history often known as the Anarchy of King Stephen's reign in the mid twelfth century covering battlefields and conflict landscapes arms armour and material culture fortifications and the church **The Secular Jurisdiction of Monasteries in Anglo-Norman and Angevin England** Kevin Lee Shirley, 2004 Study of the operation of the monastic honor court affords new insights into the evolution of royal justice in Anglo Norman and Angevin England After William the Conqueror imposed upon English monastic houses an obligation to provide knights for the king's army their new lay military and judicial responsibilities required them to organize honor courts Because abbots were not merely leaders of religious houses but also honorial lords presiding over secular justice a study of the monastic honor court affords new insights into the evolution of royal justice in Anglo Norman and Angevin England Tribunals of monastic houses answered questions on the knights tenures and services assessed and enforced military obligations and resolved tenants disputes Under the Conqueror's sons monastic lords in England regularly looked to their king for support in preserving and protecting their jurisdiction and the Anglo Norman kings responded favorably Under the Angevin kings however administrative reforms altered the nature of the honorial court and hastened the decline of the monastic honor court in the thirteenth century KEVIN L SHIRLEY teaches in the Department of History LaGrange College Contents The Monastic Honour Court Monasteries and the County Courts The Monasteries and the Curia Regis The Anglo Norman period 1066 1154 The Monasteries and the Curia Regis The reign of

Henry II 1154 1189 The Monasteries and the Curia Regis The reigns of Richard I and John 1189 1216 Conclusion English Episcopal Acta 26, London 1189-1228 D.P. Johnson, David Michael Smith, 2003-07-10 This volume contains the acta of three bishops of London Richard of Ely William de Ste M re glise and Eustace of Fauconberg Both Richard and Eustace saw service as royal treasurer indeed Richard wrote the handbook on Exchequer practice the Dialogus de Scaccario William on the other hand spearheaded the papal campaign against King John during the General Interdict **Lords and Communities in Early Medieval East Anglia** Andrew Wareham, 2005 This text is an investigation of the changing power structures of the English aristocracy in medieval England The author uses the organization of the aristocracy in East Anglia as a case study to explore the issue *The Dependent Pories of Medieval English Monasteries* Martin Heale, 2004 This study charts for the first time the history of the 140 or so daughter houses of English monasteries which have always been overshadowed by the French cells in England the so called alien priories The first part of the book examines the reasons for the foundation of these monasteries and the relations between dependent priories and their mother houses bishops and patrons The second part investigates everyday life in cells the priories interaction with their neighbours and their economic viability The unusual pattern of dissolution of these houses is also revealed Because of the tremendous bulk of material to survive for English dependencies this is the most detailed account of a group of small monasteries yet written Although daughter houses are in many ways unrepresentative of other lesser monasteries their experience sheds a great deal of light on the world of the small religious house and suggests that these shadowy institutions were far more central to medieval religion and society than has been appreciated BOOK JACKET *Laywomen and the Crusade in England, 1150-1300* DR GORDON M. REYNOLDS, 2024-11-19 Considers how elite women could participate in Crusade their means and motivations The popular perception of the medieval Crusades is of conflicts spanning from the Holy Land to the Baltic with huge armies of religious zealots led by knights wearing crosses However the reality is far more nuanced The vast majority of those living in western Europe did not go on crusade at all But that does not mean that crusading was not on their minds or that they could not influence the movement They urged others to take up the cross provided financial support and prayed for the campaigns in the Holy Land for them this was crusade This book investigates how English laywomen were encouraged to support crusades and identify with holy war during the Middle Ages challenging preconceptions of what crusade meant and bringing out the diverse ways of their participation It draws on detailed analysis of cartularies judicial records chronicles and lyrical sources it also examines the rich material culture of commemoration that celebrated the endeavour alongside the papal propaganda which idealised women s sponsorship of crusade This study therefore sheds new light not only on the role of women in crusade but on their influence and piety more generally Monasticon Anglicanum ; Or The History of the Abbies, and Other Monasteries, Hospitals, Frieries and Cathedral and Collegiate Churches with Their Dependencies in England and Wales William Dugdale, 1817 **To Follow in Their Footsteps** Nicholas L. Paul, 2012-09-21 When the First Crusade ended

with the conquest of Jerusalem in 1099 jubilant crusaders returned home to Europe bringing with them stories sacred relics and other memorabilia including banners jewelry and weapons In the ensuing decades the memory of the crusaders bravery and pious sacrifice was invoked widely among the noble families of western Christendom Popes preaching future crusades would count on these very same families for financing leadership and for the willing warriors who would lay down their lives on the battlefield Despite the great risks and financial hardships associated with crusading descendants of those who suffered and died on crusade would continue to take the cross in some cases over several generations Indeed as Nicholas L Paul reveals in *To Follow in Their Footsteps* crusading was very much a family affair Scholars of the crusades have long pointed to the importance of dynastic tradition and ties of kinship in the crusading movement but have failed to address more fundamental questions about the operation of these social processes What is a family tradition How are such traditions constructed and maintained and by whom How did crusading families confront the loss of their kin in distant lands Making creative use of Latin dynastic narratives as well as vernacular literature personal possessions and art objects and architecture from across western Europe Paul shows how traditions of crusading were established and reinforced in the collective memories of noble families throughout the twelfth and thirteenth centuries Even rulers who never fulfilled crusading vows found their political lives dominated and in some ways directed by the memory of their crusading ancestors Filled with unique insights and careful analysis *To Follow in Their Footsteps* reveals the lasting impact of the crusades beyond the expeditions themselves on the formation of dynastic identity and the culture of the medieval European nobility

Monasticon Anglicanum Sir William Dugdale,1830 *Rulership and Rebellion in the Anglo-Norman World, c.1066-c.1216* Paul Dalton,David Luscombe,2016-03-09 The importance of the themes of rulership and rebellion in the history of the Anglo Norman world between 1066 and the early thirteenth century is incontrovertible The power government and influence of kings queens and other lords pervaded and dominated society and was frequently challenged and resisted But while biographies of rulers studies of the institutions and operation of central local and seigniorial government and works on particular political struggles abound many major aspects of rulership and rebellion remain to be explored or further elucidated This volume written by leading scholars in the field and dedicated to the pioneering work of Professor Edmund King will make an original important and timely contribution to our knowledge and understanding of Anglo Norman history
