Brave New World Strangers In Paradise 11 Strangers In Paradise:

Another Tale to Tell Fred Pfeil, 1990-05-17 Through his work as a fiction writer critic and activist Fred Pfeil has sought to extend the progressive possibilities within contemporary American culture Idiosyncratic and provocative *Another Tale to Tell* moves from evaluations of politically engaged texts and practices such as Hans Haacke's deconstructive artwork Chester Himes Harlem police thrillers cyberpunk and the feminist science fiction of Octavia Butler to considerations of the history dynamics and potential of postmodern culture Pfeil's work on postmodernity is distinct from the spate of their works on the subject in its insistence on the social base of postmodern practices within today's professional managerial class and in his endeavour both to use and to criticize Marxist feminist psychoanalytic and poststructuralist thought in order to illuminate our present political impasses and openings From his audacious reading of the film *River's Edge* as the terminus of the vexed history of bourgeois narrative and his analysis of Reaganite oedipality in *Back to the Future* to his unsettling meditation on the poststructuralist paradise embodied in contemporary SF Pfeil sorts through a welter of contemporary cultural texts and practices for the glimmerings of a postmodern narrative and politics that may truly be another tale to tell *The Official Overstreet* Robert M. of social existence This book reflects upon the place of utopia moving from classic Greece to the neoliberal era specifically as manifested in Latin America It studies utopia as a political and literary device for paradigmatic changes As such it links with the literary mode of the travelogue and its supporting role in the consolidation and perpetuation of the modern colonial discourse The book reviews critical approaches to modernity and postmodernity as a philosophical enquiry on the role of symbolic languages particularly the one played by the image and the theories of representation and performance With that and by using decolonialist theory to inform an audio visual text analysis it contributes to film philosophy with a model of analysis for Latin American cinema namely the allegory of the motionless traveler This model states that Latin America millennial cinema possesses a significant aesthetic political power achieved by enacting a process of utopic re narration This book will appeal to students and academics in the humanities and social sciences and readers interested in film culture as well as those searching specifically for new perspectives on socio symbolic decolonialist dynamics operating at the crossroads of cultural politics and political culture in Latin America
