Keller,Astrid Lohöfer,2011 Cognitive science is the interdisciplinary study of the human mind As far as the exact relationship between the cognitive sciences and other fields is concerned however it appears that interdisciplinary exchange often remains unrealized possibly because of the uni directional application of theories concepts and methods which impedes the productive transfer of knowledge in both directions In the course of the cognitive turn in the humanities and social sciences many disciplines have selectively borrowed ideas from core cognitive sciences like psychology and artificial intelligence The day to day practice of interdisciplinarity thus thrives on one directional borrowings Focusing on cognitive approaches in linguistics and literary studies this volume explores bi directionality a genuine transdisciplinary interchange in which both disciplines are borrowing and lending The contributions take different perspectives on bi directionality some extend uni directional borrowing practices and point to avenues and crossroads while others critically discuss obstacles challenges and limitations to bi directional transfer Space, Haunting, Discourse Maria Holmgren Troy,Elisabeth Wennö,2009-05-27 This anthology reflects the current interest in the concept of space as a revitalising approach to literary social mental political and discursive phenomena The contributions which examine novels films art and cultures invite the reader to consider the function of space in human constructions as symbolic representation analytical tool discursive strategy and haunting effect In a wider context they demonstrate the extent to which spatiality impacts on our lives and has ethical political historical and cultural implications The contributors represent a wide range of disciplines in the Humanties Literature Photography Art Human Geography Ethnic Studies and Cultural Studies Maria Holmgren Troy and Elisabeth Wenn are Associate Professors in English Literature at Karlstad University Sweden *The Routledge Handbook of Stylistics* Michael Burke,2023-05-29 This second edition of The Routledge Handbook of Stylistics provides a comprehensive introduction and reference point to key areas in the field of stylistics The four sections of the volume encompass a wide range of approaches from classical rhetoric to cognitive neuroscience Issues that are covered include historical perspectives centring on rhetoric formalism and functionalism the elements of stylistic analysis including

B. Siegumfeldt, 2017-10-03

An inside look into Paul Auster's art and craft the inspirations and obsessions mesmerizing and dramatic in turn A remarkably candid and often surprisingly dramatic investigation into one writer's art craft and life *A Life in Words* is rooted in three years of dialogue between Auster and Professor I B Siegumfeldt starting in 2011 while Siegumfeldt was in the process of launching the Center for Paul Auster Studies at the University of Copenhagen It includes a number of surprising disclosures both concerning Auster's work and about the art of writing generally It is a book that's full of surprises unscripted yet amounting to a sharply focused portrait of the inner workings of one of America's most productive and successful writers through all twenty-one of Auster's narrative works and the themes and obsessions that drive them

Masculinity in Contemporary New York Fiction Peter Ferry, 2014-08-21 *Masculinity in Contemporary New York Fiction* is an interdisciplinary study that presents masculinity as a key thematic concern in contemporary New York fiction This study argues that New York authors do not simply depict masculinity as a social and historical construction but seek to challenge the archetypal ideals of masculinity by writing counter hegemonic narratives Gendering canonical New York writers namely Paul Auster Bret Easton Ellis and Don DeLillo illustrates how explorations of masculinity are tied into the principal themes that have defined the American novel from its very beginning The themes that feature in this study include the role of the novel in American society the individual and urban society the journey from innocence to awareness of masculinity the archetypal image of the absent and/or patriarchal father the impact of homosocial relations on the everyday performance of masculinity male sexuality and the male individual and globalization What connects these contemporary New York writers is their employment of the one of the great figures in the history of literature the flâneur These authors take the flâneur from the shadows of the Manhattan streets and elevate this figure to the role of self-reflexive agent of male subjectivity through which they write counter hegemonic narratives of masculinity This book is an essential reference for those with an interest in gender studies and contemporary American fiction *Not For Tourists Guide to Brooklyn 2015* Not For Tourists, 2014-11-25 The *Not For Tourists Guide to Brooklyn* is a neighborhood by neighborhood map based approach to New York's most

The Cambridge Companion to the Literature of New York Cyrus R. K. Patell, Bryan Waterman, 2010-03-11 A portrait of the diverse literary cultures of New York from its beginnings as a Dutch colony to the present

Rereading Schleiermacher: Translation, Cognition and Culture Teresa Seruya, José Miranda Justo, 2015-11-30 This book celebrates the bicentenary of Schleiermacher's famous Berlin conference On the Different Methods of Translating 1813 It is the product of an international Call for Papers that welcomed scholars from many international universities inviting them to discuss and illuminate the theoretical and practical reception of a text that is not only arguably canonical for the history and theory of translation but which has moreover never ceased to be present both in theoretical and applied Translation Studies and remains a mandatory part of translator training

A further reason for initiating this project was the fact that the German philosopher and theologian Friedrich Schleiermacher though often cited in Translation Studies up to the present day was never studied in terms of his real impact on different domains of translation literature and culture Beyond Cognitive Metaphor Theory Monika Fludernik, 2012-03-29 In this innovative collection an international group of scholars come together to discuss literary metaphors and cognitive metaphor theory The volume presents recent approaches to metaphor illustrates a range of successful applications of the new cognitive models to literary texts and provides an assessment of cognitive metaphor theory from a literary point of view The Seventh Age of Man Muriel Cassel-Piccot, Geneviève Lheureux, 2019-01-23 The Seventh Age of Man Issues Challenges and Paradoxes is a collection of academic essays on Old Age The contributors come from a wide range of fields of expertise which accounts for the originality of the book Depending on their respective disciplines the authors resort to various methodological approaches from sociological case studies to discourse analysis and from historical and political theories to media criticism but they often address similar questions when are people to be considered as old what does it mean to be old how do we deal with ageing and reach similar conclusions about the paradoxical representations of the elderly whether in Renaissance Europe or in contemporary China Although men and women are sometimes treated differently in most societies the older generation is alternately perceived as a threat and a burden or as financial and moral support If they are often criticized or ridiculed especially when they try to retain their youthful looks long after their prime the elderly also trigger a feeling of nostalgia as representatives of a past usually seen as more desirable than the present Their resilience and independence are regularly emphasized as well as their wisdom as a result of their long experience which helps them to contemplate their ends more serenely and which might turn them into models for their contemporaries
