My Favorite Records Daniel Braun,2019-04-11 There are hundreds of records that I have loved over the course of my life Some of these records have faded into the depths of my subconscious Fortunately most of them have stayed with me year after year

remaining fresh in my memory alive in my heart I compiled my first Favorites List in 1983 and it contained about 600 recordings Most of the records on the original list are still there today My current list consists of about 900 recordings And the list is still growing as I continue to be introduced to more music You may be familiar with Rolling Stone s 2004 cover story The 500 Greatest Songs of All Time This is certainly a comprehensive compendium on the subject so why should I bother writing this book Because I m taking a different approach a personal approach There s a difference between the greatest songs as determined by professional music critics and someone s favorite records I m not a music critic or a musicologist I m just a guy who loves good music Nonetheless I believe my opinions have value because of the strong connection I have with each record The primary purpose of this book is to draw us together using our favorite music as the catalyst In the process of getting to know someone a commonly asked question is What kind of music do you like His or her answer usually reveals something about their personality Not only will you learn what my favorite records are you will learn about me why I like these songs and how I came to discover them I m hoping to create conversations not only between you and I but between all American music lovers Thousands upon thousands of songs have been recorded over the past 60 years I ve been an avid listener for most of my life but there are still a lot of hidden treasures out there I d love to find I m hoping you by sharing your favorites with me will help me to find them I m also hoping that I will inspire you to listen to some of my favorites There is a treasure trove of great music out waiting to be enjoyed LIFE ,1959-12-28 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today s people and events They have free access to share print and post images for personal use **LIFE** ,1960-12-26 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today s people and events They have free access to share print and post images for personal use **Forthcoming Books** Rose Arny,1999 LIFE ,1962-02-16 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today s people and events They have free access to share print and post images for personal use *Hollywood on the Hudson* Richard Koszarski,2008 Thomas Edison invented his motion picture system in New Jersey in the 1890s and within a few years most American filmmakers could be found within a mile or two of the Hudson River They planted themselves here because they needed the artistic and entrepreneurial energy that D W Griffith realized New York had in abundance But as the going rate for land and labor skyrocketed and their business grew more industrialized most of them moved out The way most historians explain it the role of New York in the development of American film ends here In *Hollywood on the Hudson* Richard Koszarski rewrites an important part of the history of American cinema During the 1920s and 1930s film industry

executives had centralized the mass production of feature pictures in a series of gigantic film factories scattered across Southern California while maintaining New York as the economic and administrative center But as Koszarski reveals many writers producers and directors also continued to work here especially if their independent vision was too big for the Hollywood production line East Coast filmmakers Oscar Micheaux Rudolph Valentino Ben Hecht Charles MacArthur Paul Robeson Gloria Swanson Max Fleischer and others quietly created a studio system without back lots long term contracts or seasonal production slates They substituted newsreel photography for Hollywood glamour targeted niche audiences instead of middle American families ignored accepted dramatic conventions and pushed the boundaries of motion picture censorship Rebellious and unconventional they saw the New York studios as laboratories not factories and used them to pioneer the development of new technologies from talkies to television new genres new talent and ultimately an entirely new vision of commercial cinema **May 2008 Edition ,**
