enduring competitive advantages and high entry barriers built around redesigned business model ecosystems and customer loyalty the authors explain but this will require a critical adjustment in thinking and approach Companies first of all have to catch up with consumers who see themselves on a demand curve far beyond what companies currently perceive Business leaders must shift their focus from the cost of sustainability to its potential for generating growth and long term profits This in turn means recognizing that the classic adoption curves for innovations and the strategic playbooks derived from those insights no longer apply The Demand Revolution shows business leaders how to look beyond easy fixes and incremental outcomes and instead pursue high risk high reward moves geared toward the source of exponential growth the world s consumers
