[By Samuel Smith?] ,1868 **The Mysteries of Christianity** Matthias Joseph Scheeben,2023-03-17 The Mysteries of Christianity is Matthias Joseph Scheeben s youthful magnum opus a logically rigorous and spiritually profound dogmatic theology In its pages he explores the intelligibility of Christianity s supernatural mysteries and their deep connectedness ultimately demonstrating that Christian theology constitutes a science before the court of human reason even as its object transcends human comprehension Scheeben s task is to present a unified view of the whole panorama of revealed truth and he pursues this by considering nine key Christian mysteries the Trinity creation sin the Incarnation the Eucharist the Church and its sacraments justification eschatological glory and predestination Since the mystery of the Trinity is the root of the supernatural order Scheeben begins here showing that the foundation of the salvific economy lies in the eternal processions of persons in God the begetting of the Son and the spiration of the Spirit being in different ways the cause of the life of grace in the human soul When the Son and the Spirit are sent into the world in the Incarnation and through the bestowal of grace they provide the way for human beings to see God face to face in the beatific vision the end for which God created humans Among the means of return to God Scheeben particularly emphasizes the Eucharist on account of its close connection with the mystery of the Incarnation By placing his treatment of the Eucharist before that of the Church he signals that his is a genuinely Eucharistic ecclesiology centered on the abiding presence of the incarnate divine Son *Catalogue of the library of the New Church society, Henry street, Bath [by sir I.
