

DIVINE INFINITY IN GREEK AND MEDIEVAL THOUGHT

LEO SWEENEY, S.J.

PETER LANG

Divine Infinity In Greek And Medieval Thought

**Leo Sweeney, William J. Carroll, John J.
Furlong**

Divine Infinity In Greek And Medieval Thought:

Divine Infinity in Greek and Medieval Thought Leo Sweeney, 1998 This volume was inspired by Etienne Gilson's query made in the early 1950s as to why medieval authors spoke of God's being as infinite a statement found neither in Judaeo-Christian scriptures nor in Greek philosophy Divine Infinity in Greek and Medieval Thought deals with Hellenic and Hellenistic philosophers such as the Presocratics Plato Aristotle Plotinus and Proclus as well as with Eastern Church fathers such as Gregory of Nyssa and John Damascene The book also draws on the works of Augustine and such medieval authors as Peter Lombard Richard Fishacre Bonaventure and Aquinas It concludes that infinity is predicated of God not only extrinsically but also intrinsically His very being is infinite a predication resting on an Aristotelian theory of act potency or on a Platonic version of participation

Divine Infinity in Greek and Medieval Thought, 1998 **Infinity in Early Modern Philosophy** Ohad Nachtomy, Reed Winegar, 2018-08-31 This volume contains essays that examine infinity in early modern philosophy The essays not only consider the ways that key figures viewed the concept They also detail how these different beliefs about infinity influenced major philosophical systems throughout the era These domains include mathematics metaphysics epistemology ethics science and theology Coverage begins with an introduction that outlines the overall importance of infinity to early modern philosophy It then moves from a general background of infinity before early modern thought up through Kant Readers will learn about the place of infinity in the writings of key early modern thinkers The contributors profile the work of Descartes Spinoza Leibniz and Kant Debates over infinity significantly influenced philosophical discussion regarding the human condition and the extent and limits of human knowledge Questions about the infinity of space for instance helped lead to the introduction of a heliocentric solar system as well as the discovery of calculus This volume offers readers an insightful look into all this and more It provides a broad perspective that will help advance the present state of knowledge on this important but often overlooked topic

The Legacy of Early Franciscan Thought Lydia Schumacher, 2021-01-18 The legacy of late medieval Franciscan thought is uncontested for generations the influence of late 13th and 14th century Franciscans on the development of modern thought has been celebrated by some and loathed by others However the legacy of early Franciscan thought as it developed in the first generation of Franciscan thinkers who worked at the recently founded University of Paris in the first half of the 13th century is a virtually foreign concept in the relevant scholarship The reason for this is that early Franciscans are widely regarded as mere codifiers and perpetrators of the earlier medieval largely Augustinian tradition from which later Franciscans supposedly departed In this study leading scholars of both periods in the Franciscan intellectual tradition join forces to highlight the continuity between early and late Franciscan thinkers which is often overlooked by those who emphasize their discrepancies in terms of methodology and sources At the same time the contributors seek to paint a more nuanced picture of the tradition's legacy to Western thought highlighting aspects of it that were passed down for generations to follow as well as the extremely different contexts and

ends for which originally Franciscan ideas came to be employed in later medieval and modern thought **Oxford Studies in Medieval Philosophy Volume 7** Robert Pasnau, 2019 Oxford Studies in Medieval Philosophy showcases the best new scholarly work on philosophy from the end of antiquity into the Renaissance OSMP combines historical scholarship with philosophical acuteness and will be an essential resource for anyone working in the area **Measure of a Different Greatness** Anne Davenport, 2021-10-11 This volume examines a selection of late medieval works devoted to the intensive infinite in order to draw a comprehensive picture of the context character and importance of scholastic efforts to reason philosophically about divine infinity As Dominican masters face Franciscan spirituals and as university trained theologians face evangelical laymen the purpose and meaning of divine infinity shift reflecting a basic tension between the Church's Petrine vocation for geopolitical orthodoxy and its more Pauline mission to promote Christian orthopraxis The first part of the book traces the scholastic defense of divine infinity from the holocaust of Montségur up to John Duns Scotus The second part examines the semiotic breakthrough initiated by William of Ockham and the subsequent penetration of infinitist theory into a wide variety of disciplines *Infinity* Michael Heller, W. Hugh Woodin, 2011-02-07 This interdisciplinary study of infinity explores the concept through the prism of mathematics and then offers more expansive investigations in areas beyond mathematical boundaries to reflect the broader deeper implications of infinity for human intellectual thought More than a dozen world renowned researchers in the fields of mathematics physics cosmology philosophy and theology offer a rich intellectual exchange among various current viewpoints rather than displaying a static picture of accepted views on infinity The book starts with a historical examination of the transformation of infinity from a philosophical and theological study to one dominated by mathematics It then offers technical discussions on the understanding of mathematical infinity Following this the book considers the perspectives of physics and cosmology can infinity be found in the real universe Finally the book returns to questions of philosophical and theological aspects of infinity **Infinite Paths to Infinite Reality** Ayon Maharaj, 2018 This pioneering study examines the philosophy of the nineteenth century Indian mystic Sri Ramakrishna bringing him into dialogue with Western thinkers Sri Ramakrishna's expansive conception of God as the impersonal personal Infinite Reality Maharaj argues introduces a new paradigm for addressing central issues in the philosophy of religion Encyclopedia of Christian Theology Jean-Yves Lacoste, 2005-07-27 The Encyclopedia of Christian Theology translated from the French Dictionnaire Critique de Théologie 2nd Edition features over 530 entries contributed by 250 scholars from fifteen different countries Alphabetically arranged entries provide the reader a critical overview of the main theological questions and related topics including concepts events councils theologians philosophers movements and more Hailed as a masterpiece of scholarship this reference work will be of great interest and use for scholars students of religion and theology as well as general readers **The Immanence of the Infinite** Elizabeth Brient, 2002 Most scholars would agree that there is an epochal threshold between the world of the Middle Ages and the modern world Agreement on the nature and dynamic

structure of that threshold is harder to come by Hans Blumenberg's original and compelling account of the transition from medieval to modern given in his 1966 work *The Legitimacy of the Modern Age* has received wide attention Elizabeth Brient begins her own account of the transition with an extensive critical assessment of central aspects of Blumenberg's work She elucidates his dialogical method of historical explanation then discusses the shortcomings of his defense of the legitimacy of modernity The transition to the modern world is marked by the process of making infinite the finite medieval cosmos Whereas Blumenberg focused on the spatial infinitization of the universe Brient claims that the process must be understood intensively as well as extensively In the now infinite universe of the new science the problem of finding a measure for man's self-assertive activity and for human knowledge comes to the fore The second half of the book focuses on the way in which this difficulty is addressed with conceptual resources developed in the tradition of late medieval Neoplatonism in particular in the speculative thought of Meister Eckhart and Nicholas of Cusa Specific attention is given to the way in which Cusanus' notion of the immanence of the infinite in the finite responds to the need for a regulative ideal for human knowing This is the first book-length treatment of Blumenberg to appear in English and will be a most welcome resource for readers engaged by debates concerning the status of modernity It will be of equal interest to students of Eckhart and Cusanus and to those generally concerned with the transition between the medieval and the modern world

ABOUT THE AUTHOR Elizabeth Brient is Assistant Professor of philosophy at The University of Georgia

PRAISE FOR THE BOOK Blumenberg could not have wished for a more reverent critique of his achievements or a more exacting textual exegesis regarding the sources of their philosophical content all written in a lucid style that is forthright in the defense of the depth of thought during the Middle Ages but also pleasing in its subtle irony with respect to Blumenberg's and the author's own metaphysical creed Walter F Veit *Speculum* Brient's analysis of Blumenberg's philosophy sheds significant light in the debate concerning modernity

Albrecht Classen University of Arizona German Studies Review

Synopsis: An Annual Index of Greek Studies, 1993, 3

Andrew D. Dimarogonas, 1998-10-28 Presents 12,860 entries listing scholarly publications on Greek studies Research and review journals books and monographs are indexed in the areas of classical Hellenistic Biblical Byzantine Medieval and modern Greek studies but no annotations are included After the general listings entries are also indexed by journal text name geography and subject The CD-ROM contains an electronic version of the book Annotation copyrighted by Book News Inc Portland OR

Saintly Influence Eric Boynton, Martin Kavka, 2009-08-25 Since the publication of her first book *Emmanuel Levinas: The Problem of Ethical Metaphysics* in 1974 the first book about Levinas published in English Edith Wyschogrod has been at the forefront of the fields of Continental philosophy and philosophy of religion Her work has crossed many disciplinary boundaries making peregrinations from phenomenology and moral philosophy to historiography the history of religions both Western and non-Western aesthetics and the philosophy of biology In all of these discourses she has sought to cultivate an awareness of how the self is situated and influenced as well as the ways in which a self can influence others In

this volume twelve scholars examine and display the influence of Wyschogrod's work in essays that take up the thematics of influence in a variety of contexts Christian theology the saintly behavior of the villagers of Le Chambon sur Lignon the texts of the medieval Jewish mystic Abraham Abulafia the philosophies of Levinas Derrida and Benjamin the practice of intellectual history the cultural memory of the New Testament and pedagogy In response Wyschogrod shows how her interlocutors have brought to light her multiple authorial personae and have thus marked the ambiguity of selfhood its position at the nexus of being influenced by and influencing others

Reading Ancient Texts: Presocratics and Plato Denis O'Brien, Suzanne Stern-Gillet, Kevin Corrigan, 2007 The contributors to this volume offer in the light of specialised knowledge of leading philosophers of the ancient world answers to the question how are we to read and understand the surviving texts of Parmenides Plato Aristotle Plotinus and Augustine

Reading Ancient Texts. Volume I: Presocratics and Plato, 2008-01-31 What is the history of philosophy Is it history or is it philosophy or is it by some strange alchemy a confluence of the two The contributors to the present volume of essays have tackled this seemingly simple but in reality difficult and controversial question by drawing on their specialised knowledge of the surviving texts of leading ancient philosophers from the Presocratics to Augustine through Plato Aristotle and Plotinus These contributions which reflect the range of methods and approaches currently used in the study of ancient texts are offered as a tribute to the scholarship of Denis O'Brien one of the most original and penetrating students of the thousand year period of intense philosophical activity that constitutes ancient philosophy Contributors include T Ebert F Fronterotta C J Gill C Huffman N Notomi J C Picot J F Pradeau M Rashed K Sayre R K Sprague and J G C Strachan Publications by Denis O'Brien Theories of Weight in the Ancient World Four Essays on Democritus Plato and Aristotle A Study in the Development of Ideas 1 Democritus Weight and Size An Exercise in the Reconstruction of Early Greek Philosophy ISBN 978 90 04 06134 7 Out of print Pour interpréter Empédocle ISBN 978 90 04 06249 8 Out of print Theories of Weight in the Ancient World Four Essays on Democritus Plato and Aristotle A Study in the Development of Ideas 2 Plato Weight and Sensation The Two Theories of the Timaeus ISBN 978 90 04 06934 3 Théodicée plotinienne théodicée gnostique ISBN 978 90 04 09618 9 Wisdom in Bonaventure's Hexaëmeron Benjamin

Winter, 2024-10-11 This book presents Saint Bonaventure as a cutting edge thinker who engaged with natural philosophy on its own terms His final academic project was an unfinished collection of scholastic sermons titled Collationes in Hexaëmeron At this moment in history academics were clashing over the limits of cognition and the definition of science scientia Much has been written detailing how the incorporation of Aristotle's philosophy into university curricula eventually prompted the Condemnations of 1270 and 1277 But perhaps it is incorrect to conceive of these events in a frame of escalating tensions leading to collapse Perhaps a new perspective can be found by venturing back to 1273 to see Aristotle through the eyes of a theologian who was both magister and minister bishop and brother one who respected the academy's rigor but also challenged its tendency toward self absorption Guiding readers through vision one of Collationes in Hexaëmeron Benjamin

Winter argues that Bonaventure's rejection of certain philosophical errors ought to be understood within the context of the virtuous person's journey to wisdom. Propositions such as the eternity of the world, the unicity of the intellect, and fated necessity are not variables in a zero-sum equation balanced out by truths of faith. Instead, Bonaventure sees these propositions as opportunities to reflect charitably on nature and grace, emphasizing that just as knowledge is empty without love, understanding is insufficient without humility. Rather than renounce Aristotle or stifle scientific inquiry, *Collationes in Hexameron* wholeheartedly acknowledges the affective and communal dimensions of philosophical knowledge. Bonaventure creates a magnificent and enduring text with powerful applications today.

Augustine's Invention of the Inner Self

Phillip Cary, 2003-04-03 In this book, Phillip Cary argues that Augustine invented the concept of the self as a private inner space, a space into which one can enter and in which one can find God. Although it has often been suggested that Augustine in some way inaugurated the Western tradition of inwardness, this is the first study to pinpoint what was new about Augustine's philosophy of inwardness and situate it within a narrative of his intellectual development and his relationship to the Platonist tradition. Augustine invents the inner self, Cary argues, in order to solve a particular conceptual problem. Augustine is attracted to the Neoplatonist inward turn, which located God within the soul, yet remains loyal to the orthodox Catholic teaching that the soul is not divine. He combines the two emphases by urging us to turn in, then up, to enter the inner world of the self before gazing at the divine Light above the human mind. Cary situates Augustine's idea of the self historically in both the Platonist and the Christian traditions. The concept of private inner self he shows is a development within the history of the Platonist concept of intelligibility or intellectual vision, which establishes a kind of kinship between the human intellect and the divine things it sees. Though not the only Platonist in the Christian tradition, Augustine stands out for his devotion to this concept of intelligibility and his willingness to apply it even to God. This leads him to downplay the doctrine that God is incomprehensible, as he is convinced that it is natural for the mind's eye, when cleansed of sin, to see and understand God. In describing Augustine's invention of the inner self, Cary's fascinating book sheds new light on Augustine's life and thought and shows how Augustine's position developed into the more orthodox Augustine we know from his later writings.

Proclus

Lucas Siorvanes, 2019-08-07 Lucas Siorvanes takes the reader through Proclus' metaphysics and theory of knowledge with original research examining all aspects of Proclus' work.

[Authentic Metaphysics in an Age of Unreality, Second Edition](#) Leo Sweeney, William J. Carroll, John J. Furlong, 2007-03-19 In an age where appearances are often substituted for what really is, deception and falsity for honesty and truth, this metaphysics book takes things as they actually are and discovers that reality is actuality, which as subsistent is God. That philosophical knowledge in its content is caused by what is known and is objectively true. It considers goodness and beauty, human existents as individual relational units, e.g., the family, agents and goals, chance and evil. It is in contrast with Sartrean existentialism, process philosophy, linguistic analysis, phenomenology, hermeneutics, and deconstructionism.

[The Oxford Handbook of Medieval Philosophy](#) John Marenbon, 2012-06-14 This

Handbook shows the links between medieval and contemporary philosophy Topic based essays on all areas of philosophy explore this relationship and introduce the main themes of medieval philosophy They are preceded by the fullest chronological survey now available of the different traditions Latin and Greek Islamic and Jewish **No God, No Science** Michael Hanby, 2016-11-30 No God No Science Theology Cosmology Biology presents a work of philosophical theology that retrieves the Christian doctrine of creation from the distortions imposed upon it by positivist science and the Darwinian tradition of evolutionary biology Argues that the doctrine of creation is integral to the intelligibility of the world Brings the metaphysics of the Christian doctrine of creation to bear on the nature of science Offers a provocative analysis of the theoretical and historical relationship between theology metaphysics and science Presents an original critique and interpretation of the philosophical meaning of Darwinian biology

Eventually, you will unconditionally discover a other experience and endowment by spending more cash. nevertheless when? do you give a positive response that you require to acquire those every needs in the same way as having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will lead you to understand even more on the subject of the globe, experience, some places, in the same way as history, amusement, and a lot more?

It is your enormously own grow old to appear in reviewing habit. among guides you could enjoy now is **Divine Infinity In Greek And Medieval Thought** below.

Divine Infinity In Greek And Medieval Thought Introduction

In the digital age, access to information has become easier than ever before. The ability to download Divine Infinity In Greek And Medieval Thought has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Divine Infinity In Greek And Medieval Thought has opened up a world of possibilities. Downloading Divine Infinity In Greek And Medieval Thought provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Divine Infinity In Greek And Medieval Thought has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Divine Infinity In Greek And Medieval Thought. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Divine Infinity In Greek And Medieval Thought. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Divine Infinity In Greek And Medieval Thought, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of

the websites they are downloading from. In conclusion, the ability to download Divine Infinity In Greek And Medieval Thought has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Divine Infinity In Greek And Medieval Thought Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Divine Infinity In Greek And Medieval Thought is one of the best book in our library for free trial. We provide copy of Divine Infinity In Greek And Medieval Thought in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Divine Infinity In Greek And Medieval Thought. Where to download Divine Infinity In Greek And Medieval Thought online for free? Are you looking for Divine Infinity In Greek And Medieval Thought PDF? This is definitely going to save you time and cash in something you should think about.
