Divine Philosophy And Modern Day Science:

Divine Philosophy and Modern Day Science A. Rashid Seyal, 2005-03-15 The cadence and course of Dr Seyal's writing on the poetic stance of the Holy Scripture besides its Philosophical and Scientific discernment looks very imposing and inspiring within the folds of the true message of the text. However, one thing is conspicuous and convincing that Lord Almighty has given him the essential essence of this noble job to achieve. He seems to be motivated in the perpetuation of this most prudent and prodigious work for the drill and direction of people living in the developed world who can affirm and embrace any ideology based on logic and intellect. Dr Seyal never claims it to be a word for word version of Holy Scripture as in the introduction he has intimated.

Poetic Stance of the Holy Qur'an Abdul Rashid Seyal, 2006 About the Book This Book besides giving Poetic Stance of The Holy Qur'an also discusses Why couldn't the Creation take place without a Creator. There's a mathematical affirmation besides scientific and philosophical assertions. The answer to it you find in the topic Initial and Infinite and also Creation. Adam PBUH of Science and of Qur'an 71:17 n 24:45 Al Qur'an are not two but one Philosophy of Life. What are we composed of? How we'll be brought back to life in Hereafter and how our hands and feet will assert for our done and doings of this life. Philosophy of Soul or the Efflux and the Intelligence a bestowal of Lord Almighty and

Enigma of Sudden Cardiac Death A. Rashid Seyal, Rashid A. Seyal, 2006 The pathological behavior of a modern man is indebted to the complexity of various environmental encounters acting as unspoken disconcerting even trivial events of day to day life. Each one of us is exposed to such psychic and socio-cultural strains which are inherent in the particular environments and will sooner or later succumb to the need to fidget and to perform small trivial acts displaced from usual functional context and injected into quite alien behavior sequences in an attempt to avoid behavioral stalemates of contradictory urges. It was surprising when somebody had said such and such garments make me uneasy and sick or I feel completely relaxed with certain blend of Garments. We wanted to make sure if these influences have lasting maturational influences on the body systems. Because an overload of stress which may arrive as a big chunk or in a series of small bits may be a Physical source of insult i.e. accidental trauma, malnutrition, disturbed sleep or Psychological i.e. disturbed family life, loss of a job, personal insecurity etc. But the more appropriate definition of a stressor is given in the most recent literature. A stressor could be an environmental source in more scientific words. Extroceptive i.e. natural calamities, chronic occupational stress, over crowding, territorial conflicts, imposition of stressful behavioral task etc. This could also be a naturally evoked Agonistic behavioral response such as resulting from confrontation with an attacking animal or an on-rushing car. But the more complex behavioral response of an individual is observed in response to activation of the cutaneous receptors due to Noxious or Nociceptive Stress. Initially only painful stimuli were attributed to have such influences. But later scientists used loud noise and noxious cold stimulation and produced similar behavioral responses. Our experience with the Synthetic Blend of Garments showed similar behavioral reactions. We wanted to confirm the local static thermal and mechanical influences

instigated due poor sweat absorption of the Synthetic Blend of Garments could really produce nociceptive type of behavioral responses **Faith in the Unseen** Dr. Seyal,2014-06-12 Faith in the Unseen is challenging in the intellectual sense not the stylistically abrasive sense and fascinating An intriguing contribution to the debate on science and religion it provides a remarkable insight into scriptural close reading and the rationalization of religious faith **The Lancet London** ,1863
