Divine Powers:

Divine Powers in Late Antiquity Anna Marmodoro, Irini-Fotini Viltanioti, 2017-01-26 Is power the essence of divinity or are divine powers distinct from divine essence Are they divine hypostases or are they divine attributes Are powers such as omnipotence omniscience etc modes of divine activity How do they manifest In which way can we apprehend them Is there a multiplicity of gods whose powers fill the cosmos or is there only one God from whom all powers derive and whose powers permeate everything These are questions that become central to philosophical and theological debates in Late Antiquity roughly corresponding to the period 2nd to the 6th centuries On the one hand the Pagan Neoplatonic thinkers of this era postulate a complex hierarchy of gods whose powers express the unlimited power of the ineffable One On the other hand Christians proclaim the existence of only one God one divine power or one Lord of all powers Divided into two main sections the first part of *Divine Powers in Late Antiquity* examines aspects of the notion of divine power as developed by the four major figures of Neoplatonism Plotinus c 204 270 Porphyry c 234 305 Iamblichus c 245 325 and Proclus 412 485 It focuses on an aspect of the notion of divine power that has been so far relatively neglected in the literature Part two investigates the notion of divine power in early Christian authors from the New Testament to the Alexandrian school Clement of Alexandria Origen Athanasius the Great and further to the Cappadocian Fathers Basil the Great Gregory of Nyssa as well as in some of these authors sources the Septuagint Philo of Alexandria The traditional view tends to overlook the fact that the Bible particularly the New Testament was at least as important as Platonic philosophical texts in the shaping of the early Christian thinking about the Church's doctrines Whilst challenging the received interpretation by redressing the balance between the Bible and Greek philosophical texts the essays in the second section of this book nevertheless argue for the philosophical value of early Christian reflections on the notion of divine power The two groups of thinkers that each of the sections deal with the Platonic Pagan and the Christian one share largely the same intellectual and cultural heritage they are concerned with the same fundamental questions and they often engage in more or less public philosophical and theological dialogue directly influencing one another

Divine Powers in Late Antiquity Irini-Fotini Viltanioti, Anna Marmodoro, 2017 A collection of original essays on the concept of divine powers in Late Antiquity It investigates how four major figures of Neoplatonism Plotinus Porphyry Iamblichus Proclus and early Christian authors from the New Testament the Alexandrian school and the Cappadocian Fathers developed aspects of the notion of divine power

Communicatio Idiomatum Richard Cross,2019 This study offers a radical reinterpretation of the sixteenth century Christological debates between Lutheran and Reformed theologians on the ascription of divine and human predicates to the person of the incarnate Son of God the communicatio idiomatum It does so by close attention to the arguments deployed by the protagonists in the discussion and to the theologians metaphysical and semantic assumptions explicit and implicit It traces the central contours of the Christological debates from the discussion between Luther and Zwingli in the 1520s to the Colloquy of Montbeliard in 1586 Richard Cross shows that Luther s Christology is thoroughly Medieval and that innovations usually associated with Luther in particular that Christ s human nature comes to share in divine attributes should be ascribed instead to his younger contemporary Johannes Brenz The discussion is highly sensitive to the differences between the various Luther groups followers of Brenz and the different factions aligned in varying ways with Melanchthon and to the differences between all of these and the Reformed theologians By locating the Christological discussions in their immediate Medieval background Cross also provides a comprehensive account of the continuities and discontinuities between the two eras In these ways it is shown that the standard interpretations of the Reformation debates on the matter are almost wholly mistaken

A Body of Divinity Thomas Ridgley,1855 *Dynamics of Monotheism in Late Antiquity* Guy G. Stroumsa,2025-07-08

From early Christianity to the emergence of Islam the long late antiquity denotes a truly revolutionary period in the history of religions In many ways religious ritual patterns and theological worldviews were then radically transformed throughout the Near East and the Mediterranean In particular the traditional polytheistic systems collapsed giving way to various forms of monotheism and dualism In *Dynamics of Monotheism in Late Antiquity* Guy G Stroumsa seeks to analyze this multifaceted revolution as a whole rather than focusing as is usually the case on distinct religious communities and traditions such as Judaism Zoroastrianism Gnosticism Christianity Manichaeism and earliest Islam Many of the elements of religious change in

our period can be perceived as a *praeparatio coranica* as it were as they set the scene for the advent of Islam The thrust of the book is to identify the key dynamics through which religious change happened in the kaleidoscope of religious conceptions The analysis emphasizes the dialectics between monotheist and dualist perceptions and systems It will also seek to identify the core elements of the Abrahamic religions in the making
