therapeutic techniques Divorced Fathers and Their Families Florence W. Kaslow, 2012-12-09 This book focuses on the experience of father's lives after a divorce and how mental health professionals can help them create a healthy transition. Through the use of case examples critical issues are highlighted and discussed with supportive empirical findings and clinical insights. Traditionally the marital legal sessions as well as the ultimate marriage settlement focus on the issues confronted by the ex-wife and mother and on the custody and visitation plan for the children. This is actually supported by law in some places. This can remove the father from important qualitative issues such as what it is like to have children in two households, relationships with two sets of grandparents where holidays will be spent, fair rotations of responsibility and how continuing parental discord can be resolved. The issues examined in this volume are relevant to a range of professionals who deal with divorcing couples from psychologists and family therapists to legal advisors and judges **The ^A Church Leader's Counseling Resource Book** Cynthia Franklin Ph.D., Rowena Fong, 2011-02-01 This all-in-one guide is designed to better equip clergy to meet their churches' needs in a spiritually grounded and scientifically sound manner. Succinct, easy-to-read chapters summarize all a pastor needs to know about a given problem area including its signs or symptoms, questions to ask, effective helping skills, and most importantly when to refer to a mental health professional *Treating Couples* Gerald R. Weeks, 2013-05-24 In some ways the development of the theory and practice of marital therapy seems like a relative newcomer to those clinicians who practice systems therapy. Most of the books in the field stress the total family as the unit of treatment in terms of understanding the dynamics of family interactions and intervention techniques. For the past 15 or 20 years clinicians interested in systems work sought training in family therapy programs and at family therapy workshops. This training led to a dramatic shift in the practice of psychotherapy away from the individual as the unit of treatment to the family. Much less emphasis has been given to the marital dyad or couple as the unit of treatment *Divorce Counseling* Marian H.
