Disorienting Fiction:

Disorienting Fiction James Buzard, 2009-01-10 This book gives an ambitious revisionist account of the nineteenth century British novel and its role in the complex historical process that ultimately gave rise to modern anthropology's concept of culture and its accredited researcher the Participant Observer Buzard reads the great nineteenth century novels of Charles Dickens Charlotte Brontë George Eliot and others as metropolitan autoethnographies that began to exercise and test the ethnographic imagination decades in advance of formal modern ethnography and that did so while focusing on Western European rather than on distant Oriental subjects Disorienting Fiction shows how English Victorian novels appropriated and anglicized an autoethnographic mode of fiction developed early in the nineteenth century by the Irish authors of the National Tale and most influentially by Walter Scott Buzard demonstrates that whereas the fiction of these non-English British subjects devoted itself to describing and defending but also inventing the cultural autonomy of peripheral regions the English novels that followed them worked to imagine limited and mappable versions of English or British culture in reaction against the potential evacuation of cultural distinctiveness threatened by Britain's own commercial and imperial expansion These latter novels attempted to forestall the self-incurred liabilities of a nation whose unprecedented reach and power tempted it to universalize and export its own customs to treat them as simply equivalent to a globally applicable civilization For many Victorian novelists a nation facing the prospect of being able to go and to exercise its influence just about anywhere in the world also faced the danger of turning itself into a cultural nowhere The complex autoethnographic work of nineteenth century British novels was thus a labor to disorient or de-globalize British national imaginings and novelists mobilized and freighted with new significance some basic elements of prose narrative in their efforts to write British culture into being Sure to provoke debate this book offers a commanding reassessment of a major moment in the history of British literature

Genealogical Fictions Jobst Welge, 2015-02-16 Moving through time he uncovers often unsuspected novelistic continuities and international transformations and echoes from Maria Edgeworth's *Castle Rackrent* published in 1800 to G. Tomasi di Lampedusa's 1958 book *Il Gattopardo* By revealing the family resemblance of novels from Great Britain Italy Spain Portugal and Brazil this volume shows how genealogical narratives take on special significance in contexts of cultural periphery Welge links private and public histories while simultaneously integrating detailed accounts of various literary fields across the globe In combining theories of the novel recent discussions of cultural geography and new approaches to genealogical narratives *Genealogical Fictions* addresses a significant part of European and Latin American literary history in which texts from different national cultures illuminate each other in unsuspected ways and reveal the repetition as well as the variation among them

Sympathetic Realism in Nineteenth-Century British Fiction Rae Greiner, 2013-01-21 British realist novelists of the nineteenth century viewed sympathy not as a feeling but as a form of imaginative thinking useful in constructing their fiction Rae Greiner proposes that sympathy is integral to the form of the

classic nineteenth century realist novel Following the philosophy of Adam Smith Greiner argues that sympathy does more than foster emotional identification with others it is a way of thinking along with them By abstracting emotions feelings turn into detached figures of speech that may be shared Sympathy in this way produces realism it is the imaginative process through which the real is substantiated In *Sympathetic Realism in Nineteenth Century British Fiction* Greiner shows how this imaginative process of sympathy is written into three novelistic techniques regularly associated with nineteenth century fiction metonymy free indirect discourse and realist characterization She explores the work of sentimentalist philosophers David Hume Adam Smith and Jeremy Bentham and realist novelists Jane Austen Charles Dickens George Eliot Joseph Conrad and Henry James *The Cambridge Companion to the Victorian Novel* Deirdre David, 2012-10-18 In the Victorian period the British novel reached a wide readership and played a major role in the shaping of national and individual identity As we come to understand the ways the novel contributed to public opinion on religion gender sexuality and race we continue to be entertained and enlightened by the works of Dickens George Eliot Thackeray Trollope and many others This second edition of the *Companion to the Victorian Novel* has been updated fully taking account of new research and critical methodologies There are four new chapters and the others have been thoroughly updated as has the guide to further reading Designed to appeal to students teachers and readers these essays reflect the latest approaches to reading and understanding Victorian fiction *British Fiction and Cross-Cultural Encounters* C. Snyder, 2016-09-23 This book reveals that British modernists read widely in anthropology and ethnography sometimes conducted their own fieldwork and thematized the challenges of cultural encounters in their fiction letters and essays **Urban Realism and the Cosmopolitan Imagination in the Nineteenth Century** Tanya Agathocleous, 2011 Traces the development of cosmopolitanism and the growing importance of the city in nineteenth century literature *Semi-Detached* John Plotz, 2024-02-27 A critical look at the aesthetic encounter with semi detachment through literature and art When you are half lost in a work of art what happens to the half left behind *Semi Detached* delves into this state of being what it means to be within and without our social and physical milieu at once interacting and drifting away and how it affects our ideas about aesthetics The allure of many modern aesthetic experiences this book argues is that artworks trigger and provide ways to make sense of this oscillating in between place John Plotz focuses on Victorian and early modernist writers and artists who understood their work as tapping into amplifying or giving shape to a suspended duality of experience The book begins with the decline of the romantic tale the rise of realism and John Stuart Mill's ideas about social interaction and subjective perception Plotz examines Pre Raphaelite paintings that take semi detached states of attention as their subject and novels that treat provincial subjects as simultaneously peripheral and central He discusses how realist writers such as Charles Dickens George Eliot and Henry James show how consciousness can be in more than one place at a time how the work of William Morris demonstrates the shifting forms of semi detachment in print and visual media and how Willa Cather created a form of modernism that connected aesthetic dreaming and reality

Plotz concludes with a look at early cinema and the works of Buster Keaton who found remarkable ways to portray semi detachment on screen In a time of cyberdependency and virtual worlds when it seems that attention to everyday reality is stretching thin *Semi Detached* takes a historical and critical look at the halfway thereness that audiences have long comprehended and embraced in their aesthetic encounters

Victorian Vulgarities Susan David Bernstein, Elsie B. Michie, 2016-12-05 Originally describing language use and class position vulgarity became over the course of the nineteenth century a word with wider social implications Various associations with behavior the possession of wealth different races sexuality and gender the objects displayed in homes and ways of thinking and feeling vulgarity suggested matters of style taste and comportment This collection examines the diverse ramifications of vulgarity in the four areas where it was most discussed in the nineteenth century language use changing social spaces the emerging middle classes and visual art Exploring the dynamics of the term as revealed in dictionaries and grammars Mayhew's London Labour and the London Poor fiction by Dickens Eliot Gissing and Trollope essays journalism art and art reviews the contributors bring their formidable analytical skills to bear on this enticing and divisive concept Taken together these essays urge readers to consider the implications of vulgarity's troubled history for today's writers critics and artists

[Sciences of Modernism](#) Paul Peppis, 2014-02-28 *Sciences of Modernism* examines key points of contact between British literature and the human sciences of ethnography sexology and psychology at the dawn of the twentieth century The book is divided into sections that pair exemplary scientific texts from the period with literary ones charting numerous collaborations and competitions occurring between science and early modernist literature Paul Peppis investigates this exchange through close readings of literary works by Claude McKay E M Forster Mina Loy Rebecca West and Wilfred Owen alongside science books by Alfred Haddon Havelock Ellis Marie Stopes Bernard Hart and William Brown In so doing Peppis shows how these competing disciplines participated in the formation and consolidation of modernism as a broad cultural movement across a range of critical discourses His study will interest students and scholars of the history of science literary modernism and English literature more broadly

Family Likeness Mary Jean Corbett, 2011-03-15 In nineteenth century England marriage between first cousins was both legally permitted and perfectly acceptable After mid century laws did not explicitly penalize sexual relationships between parents and children between siblings or between grandparents and grandchildren But for a widower to marry his deceased wife's sister was illegal on the grounds that it constituted incest That these laws and the mores they reflect strike us today as wrongheaded indicates how much ideas about kinship marriage and incest have changed In *Family Likeness* Mary Jean Corbett shows how the domestic fiction of novelists including Jane Austen Charlotte Brontë George Eliot Elizabeth Gaskell and Virginia Woolf reflected the shifting boundaries of family and even helped refine those borders Corbett takes up historically contingent and culturally variable notions of who is and is not a relative and whom one can and cannot marry Her argument is informed by legal and political debates texts in sociology and anthropology and discussions on the biology of heredity breeding and eugenics In Corbett's view marriage within families between cousins in laws or adoptees offered Victorian women both real and fictional an attractive alternative to romance with a stranger not least because it allowed them to maintain and strengthen relations with other women within the family

London and the Making of Provincial Literature Joseph Rezek, 2015-08-28 In the early nineteenth century London publishers dominated the transatlantic book trade No one felt this more keenly than authors from Ireland Scotland and the United States who struggled to establish their own national literary traditions while publishing in the English metropolis Authors such as Maria Edgeworth Sydney Owenson Walter Scott Washington Irving and James Fenimore Cooper devised a range of strategies to transcend the national rivalries of the literary field By writing prefaces and footnotes addressed to a foreign audience revising texts specifically for London markets and celebrating national particularity provincial authors appealed to English readers with idealistic stories of cross cultural communion From within the messy and uneven marketplace for books Joseph Rezek argues provincial authors sought to exalt and purify literary exchange In so doing they helped shape the Romantic era belief that literature inhabits an autonomous sphere in society London and the Making of Provincial Literature tells an ambitious story about the mutual entanglement of the history of books and the history of aesthetics in the first three decades of the nineteenth century Situated between local literary scenes and a distant cultural capital enterprising provincial authors and publishers worked to maximize success in London and to burnish their reputations and build their industry at home Examining the production of books and the circulation of material texts between London and the provincial centers of Dublin Edinburgh and Philadelphia Rezek claims that the publishing vortex of London inspired a dynamic array of economic and aesthetic practices that shaped an era in literary history
