Visions of Invasion Michael Lechuga, 2023-03-02 Visions of Invasion Alien Affects Cinema and Citizenship in Settler Colonies explores how the US government mobilizes media and surveillance technologies to operate a highly networked multidimensional system for controlling migrants Author Michael Lechuga focuses on three arenas where a citizenship control assemblage manufactures alienhood Hollywood extraterrestrial invasion film federal antimigration and border security legislation and various immigration enforcement protocols implemented along the Mexico United States border Building on rhetorical studies settler colonial studies and media studies Visions of Invasion offers a glimpse at how the processes of alien making contribute to an ongoing settler colonial project in the US Lechuga demonstrates that popular films The War of the Worlds Predator Men in Black and more participate in the production of migrants as subjective terrorists felons and other noncitizen personae vilified in public discourse Beyond just tracing how alien invasion narratives circulate in popular media Lechuga describes how the logics motivating early US colonists materialize in both the US s citizenship control policy and in some of the country s most popular texts Beneath each of the film franchises and antimigrant political expressions described in Visions of Invasion lies an anxious colonial logic in which the settler way of life is seemingly threatened by false narratives of imminent invasion from abroad The volume offers a deep dive into how the rhetorical figure of the alien has been manufactured as a political subjectivity one that plays out the anxieties guilts and fears of colonialism in today s science fiction landscape *Teaching and Learning Through the Holocaust* Anthony Pellegrino, Jeffrey

Handley, 2024-08-14 The urban renewal policies stemming from the 1954 Housing Act and 1956 Highway Act destroyed the economic centers of many Black neighborhoods in the United States Struggle for the City recovers the agency and solidarity of African American residents confronting this diagnosis of blight in

northern cities in the 1950s and 1960s Examining Black newspapers archival documents from Black organizations and oral histories of community advocates Derek G Handley shows how African American residents in three communities the Hill district of Pittsburgh the Bronzeville neighborhood of Milwaukee and the Rondo district of St Paul enacted a new form of citizenship to fight for their neighborhoods Dubbing this the Black Rhetorical Citizenship a nod to the integral role of language and other symbolic means in the Black Freedom Movement Handley situates citizenship as both a site of resistance and a mode of public engagement that cannot be divorced from race and the effects of racism Through this framework Struggle for the City demonstrates how local organizers leaders and residents used rhetorics of placemaking community organizing and critical memory to resist the bulldozing visions of urban renewal By showing how African American residents built political community at the local level and by centering the residents in their own narratives of displacement Handley recovers strategies of resistance that continue to influence the actions of the Black Freedom Movement including Black Lives Matter

Slavery and Sacred Texts Jordan T. Watkins, 2021-07-01 In the decades before the Civil War Americans appealed to the nation's sacred religious and legal texts the Bible and the Constitution to address the slavery crisis The ensuing political debates over slavery deepened interpreters' emphasis on historical readings of the sacred texts and in turn these readings began to highlight the unbridgeable historical distances that separated nineteenth century Americans from biblical and founding pasts While many Americans continued to adhere to a belief in the Bible's timeless teachings and the Constitution's enduring principles some antislavery readers including Theodore Parker Frederick Douglass and Abraham Lincoln used historical distance to reinterpret and use the sacred texts as antislavery documents By using the debate over American slavery as a case study Jordan T Watkins traces the development of American historical consciousness in antebellum America showing how a growing emphasis on historical readings of the Bible and the Constitution gave rise to a sense of historical distance
