## **Disseminating Lacan:**

Disseminating Lacan David Pettigrew, François Raffoul, 1996-04-11 The distinguishing feature of *Disseminating Lacan* is its decidedly interdisciplinary approach. This book brings together diverse research efforts which have remained until now isolated in their respective subject matter areas. The essays selected here exhibit a threefold discursive movement of dissemination which is implicit in Lacan's texts. First they bring to light the way in which Lacan's text has been formed through diverse borrowings from various theoretical discourses such as sociology, linguistics and philosophy. Second they trace how Lacan's text in turn has engaged, affected and transformed those theoretical disciplines. Third they suggest some possible critical readings of Lacan from various perspectives and concerns. These critiques far from refuting Lacan's undeniable contribution to psychoanalysis and to the intellectual world, enrich and advance Lacanian discourse. The book features four prominent French Lacanians: Juan David Nasio, Joël Dor, Moustapha Safouan and Mikkel Borch-Jacobsen. Essays by two of them, Nasio and Dor, appear here in English for the first time. Additionally, the volume features authors who have established and continue to guide Lacanian studies in the United States and it introduces emerging voices in Lacanian studies.

**Disseminating Lacan** David Pettigrew, François Raffoul, 1996-01-01 Brings together parts of the Lacanian discourse that have remained isolated in their respective research areas and outlines the shape of Lacanian discourse showing the relation of Lacan's thought to philosophy, science, literature and aesthetics, gender and sexuality and psychoanalytic theory.

**Lacan the Charlatan** Peter D. Mathews, 2020-06-01 This book sets out to determine the validity of an accusation made against Jacques Lacan by Noam Chomsky in an interview in 1989. He stated that Lacan was a charlatan, not that his ideas were flawed or wrong, but that his entire discourse was fraudulent, an accusation that has since been repeated by many other critics. Examining the arguments of key anti-Lacanian critics, Mathews weighs and contextualizes the legitimacy of Lacan's engagements with structural linguistics, mathematical formalization, science, ethics, Hegelian dialectics and psychoanalysis. The guiding thread is Lacan's own recurrent interrogation of authority which inhabits an ambiguous zone between mastery and charlatanry. This book offers a novel contribution to the field for students and scholars of psychoanalysis, philosophy, sociology, critical and literary theory.

**The Cambridge Companion to Lacan** Jean-Michel Rabaté, 2003-07-31 This collection of specially commissioned essays by academics and practising psychoanalysts, first published in 2003, explores key dimensions of Jacques Lacan's life and work. Lacan is renowned as a theoretician of psychoanalysis whose work is still influential in many countries. He refashioned psychoanalysis in the name of philosophy and linguistics at the time when it underwent a certain intellectual decline. Advocating a return to Freud by which he meant a close reading in the original of Freud's works, he stressed the idea that the unconscious functions like a language. All essays in this Companion focus on key terms in Lacan's often difficult and idiosyncratic developments of psychoanalysis. This volume will bring fresh, accessible perspectives to the work of this formidable and influential thinker. These essays, supported by a

useful chronology and guide to further reading will prove invaluable to students and teachers alike

**Lacan and the Destiny of Literature** Ehsan Azari, 2011-10-27 In contemporary academic literary studies Lacan is often considered impenetrably obscure due to the unavailability of his late works insufficient articulation of his methodologies and sometimes stereotypical use of Lacanian concepts in literary theory This study aims to integrate Lacan into contemporary literary study by engaging with a broad range of Lacanian theoretical concepts often for the first time in English and using them to analyse a range of key texts from different periods Azari explores Lacan's theory of desire as well as his final theories of *littoral* and the *sinthome* and interrogates a range of poststructuralist interpretive approaches In the second part of the book he outlines the variety of ways in which Lacanian theory can be applied to literary texts and offers detailed readings of texts by Shakespeare Donne Joyce and Ashbery This ground breaking study provides original insights into a number of the most influential intellectual discussions in relation to Lacan and will fill a recognised gap in understanding Lacan and his legacy for literary study and criticism

*Jacques Lacan and Feminist Epistemology* Kirsten Campbell, 2004-07-31 Using Lacanian psychoanalysis as a starting point Campbell examines contemporary feminism's turn to accounts of feminist knowing to create new conceptions of the political

**Phenomenology and Lacan on Schizophrenia** Alphonse de Waelhens, Wilfried Ver Eecke, 2001 In *Phenomenology and Lacan on Schizophrenia* Alphonse De Waelhens provides a clear summary of Lacan's theory of schizophrenia as Lacan derived it from his commentary of Freud's study of the *Memoirs of Schreber* De Waelhens also shows how Lacan's understanding of the schizophrenic as having a defective relation to language can also explain four other characteristics of schizophrenic behavior the fragmented body image lack of realistic evaluation of the world so called bisexuality and confusion of birth and death Third De Waelhens gives a Hegelian interpretation of the pre Oedipal experience of the child He makes use of Freud's study on his grand child using a bobbin and later the words *fort da* away here to demonstrate that a transitional object allows the child to take distance from its attachment to the mother so that it can start to separate itself from the mother Taking distance is according to De Waelhens introducing the Hegelian negative which is the birth of the subject Fourth De Waelhens gives a dialectic reading of the history of German and French psychiatry He shows the epistemological contradictions in the work of some of the great nineteenth century psychiatrists relying too exclusively on a biological model of schizophrenia In his contribution to this volume Wilfried Ver Eecke draws several lessons from evaluating the literature on schizophrenia He argues that epistemologically neither a biological nor a psychological method of reasoning can capture all the factors that can play a role in the creation of schizophrenia He relies heavily but not exclusively on the Finnish studies of Tienari Myrhrman and Wahlberg and their colleagues to provide statistical evidence that non biological factors also play an important role in causing schizophrenia He relies heavily but again not exclusively on the study by Karon and VandenBos to demonstrate statistically the efficiency of psychodynamically inspired therapy of schizophrenics Ver Eecke also addresses an apparent inconsistency in De Waelhens presentation of Lacan's theory of

schizophrenia Where De Waelhens seemed to argue at one time that the mother figure was the crucial figure to explain schizophrenia leading to a defective relation to the body and at another time that it was the role of the father which was crucial leading to a defective relation to language and the symbolic there Ver Eecke argues that the defective function of each influences the function of the other He then draws a conclusion for the therapy of schizophrenics to be helpful a therapist will have to address both deficiencies The problem for treating schizophrenics is that correcting an unconscious deficiency to the body a deficiency in the imaginary requires a totally different kind of intervention than an attempt to correct a symbolic deficiency a deficiency in the paternal function A correction of the imaginary requires a kind of maternal mirroring a correction of the symbolic requires making a distinction or a prohibition stick One further difficulty arises Psychotherapy uses language in its treatment However language in schizophrenics is deficient We can therefore expect that language will be inefficient This is so unless the therapist uses language first to make a repair at the imaginary level and only thereafter makes an attempt to make a correction in the symbolic In analyzing successful therapeutic techniques reported by several therapists Ver Eecke discovers that all of them first try to repair the imaginary before they attempt to make corrections to the symbolic

Five Lessons on the Psychoanalytic Theory of Jacques Lacan Juan-David Nasio,1998-01-01 In this first English translation of a classic text by one of the foremost commentators on Lacan's work Nasio eloquently demonstrates the clinical and practical import of Lacan's theory even in its most difficult or obscure moments Five Lessons on the Psychoanalytic Theory of Jacques Lacan is the first English translation of a classic text by one of the foremost commentators on Lacan's work Juan David Nasio makes numerous theoretical advances and eloquently demonstrates the clinical and practical import of Lacan's theory even in its most difficult or obscure moments What is distinctive in the end about Nasio's treatment of Lacan's theory is the extent to which Lacan's fundamental concepts the unconscious jouissance and the body become the locus of the overturning or exceeding of the discrete boundaries of the individual The recognition of the of the implications of Lacan's psychoanalytic theory then brings the analyst to adopt what Nasio calls a special listening

*Lacan and the Political* Yannis Stavrakakis,2002-09-11 The work of Jacques Lacan is second only to Freud in its impact on psychoanalysis Yannis Stavrakakis clearly examines Lacan's challenging views on time history language alterity desire and sexuality from a political standpoint It is the first book to provide an overview of the social and political implications of Lacan's work as a whole for students coming to Lacan for the first time The first part of *Lacan and the Political* offers a straightforward and systematic assessment of the importance of Lacan's categories and theoretical constructions for concrete political analysis The second half of the book applies Lacanian theory to specific examples of widely discussed political issues such as Green ideology the question of democracy and the hegemony of advertising in contemporary culture

*Beyond Lacan* James M. Mellard,2006-10-05 In *Beyond Lacan* James M Mellard traces psychoanalytic literary theory and practice from Freud to Lacan to Žižek While Freud effectively presupposes an unconscious that is textual it is Lacan whose

theory all but articulates a textual unconscious as he offers the epoch a cutting edge psychoanalytic ideology Mellard considers this and then asks Which Lacan Is there one or many Early or late As Žižek counters the notion of a single unitary Lacan Lacanians are asked to choose Through Lacanian readings of various texts from novels like Ellison's Invisible Man and O'Connor's Wise Blood to short stories by Glaspell and Fitzgerald Mellard shows that in critical practice Lacanians produce a middle Lacan between early and late Mellard concludes by examining why Žižek has perhaps transcended Lacan More than any other it is Žižek who has constructed early and late Lacan making possible that middle Lacan of praxis but in the process he has also claimed an independent authority Ultimately Mellard explains how Žižek offers a post Lacanian critique one built on a pervasive philosophy of paradox that opens new avenues of analysis of contested cultural and literary issues such as subjectivity political economy multiculturalism and religious belief *Lacan and the Biblical Ethics of Psychoanalysis* Itzhak Benyamini, 2023-12-08 In this fascinating and ground breaking book Itzhak Benyamini uses discourse analysis to lay out the way Lacan constructed his own intellectual discourse informed by Judeo Christianity Offering an understanding of Lacan's emergence and intellectual struggles with significant contemporary intellectuals the author builds a panoramic view of the entire psychoanalytic discourse at the time of the foundational post Freudian generation By engaging in close reading of texts and seminars given by Lacan between the 1930s and 50s Benyamini uncovers the coming into being of Lacan's key concepts The Mirror Stage the Imaginary the Real the Symbolic the Name of the Father the Other jouissance and das Ding The author argues that Lacan wished to regulate this process of conceptualization by connecting the concepts of the Father and the Other with themes from the Judeo Christian tradition especially the Biblical one to create a clinical ethic that does not reflect a worldview or ideology and is guided solely by the analysand's unconscious desire

**Merleau-Ponty, Interiority and Exteriority, Psychic Life and the World** Dorothea Olkowski, James Morley, 1999-09-09 Explores Merleau Ponty's approach of taking the phenomenon of the body out of the dualistic constraints of interior and exterior and the consequences thereof **Jacques Lacan** Slavoj Žižek, 2003 Jacques Lacan 1901-1980 is undoubtedly the central figure of psychoanalysis in the second half of the 20th century The texts selected here present the entire scope of the Lacan debate **Reading Seminar XX** Suzanne Barnard, Bruce Fink, 2012-02-01 This collection offers the first sustained in depth commentary on Seminar XX Encore considered the cornerstone of Lacan's work on the themes of sexual difference knowledge jouissance and love Although Seminar XX was originally popularized as Lacan's treatise on feminine sexuality these essays by some of today's foremost Lacanian scholars go beyond feminine sexuality to address Lacan's significant intertwining concern with the rupture between reality and the real produced by modern science and the implications of this rupture for subjectivity knowledge jouissance and the body The essays clarify basic concepts but for readers already familiar with Lacan they also offer sophisticated workings through of the more challenging and obscure arguments in Encore both by tracing their historical development across Lacan's oeuvre and by demonstrating their relation to

particular philosophical theological mathematical and scientific concepts They cover much of the terrain necessary for understanding sexual difference not in terms of chromosomes body parts choice of sexual partner or varieties of sexual practice but in terms of one's position vis vis the Other and the kind of jouissance one is able to obtain In so doing they make significant interventions in the debates regarding sex gender and sexuality in feminist theory philosophy queer theory and cultural studies

**Lacanian Psychoanalytic Theory** Daniel Bristow, 2018-01-18 In 1968 Stanley Kubrick completed and released his magnum opus motion picture 2001 A Space Odyssey a time that was also tremendously important in the formation of the psychoanalytic theory of Jacques Lacan Bringing these figures together Bristow offers a study that goes beyond as the film did He extends Lacan's late topological insights delves into conceptualisations of desire in G W F Hegel Alexandre Kojve and Lacan himself and deals with the major themes of cuts filmic and psychoanalytic space silence surreality and das Ding in relation to the movie's enigmatic monolith This book is a tour de force of psychoanalytic theory and space odyssey that will appeal to academics and practitioners of psychoanalysis and film studies as well as to any fan of Kubrick's work

*Subjectivity In-Between Times* Chenyang Wang, 2019-09-19 This book is the first to systematically investigate how the notion of time is conceptualised in Jacques Lacan's work Through a careful examination of Lacan's various presentations of time Chenyang Wang argues that this notion is key to a comprehension of Lacan's psychoanalytic thinking and in particular to the way in which he theorises subjectivity This book demonstrates that time is approached by Lacan not only as consciously experienced but also as pre reflectively embodied and symbolically generated In an analysis that begins with Lacan's Logical Time essay Chenyang Wang articulates three temporal registers that correspond to Lacan's Real Symbolic Imaginary triad and also demonstrates how Lacan's elaboration of other major themes including consciousness body language desire and sexuality is informed by his original perspectives on time Filling a significant gap in contemporary Lacanian studies this book will provide essential reading for students and scholars of psychoanalytic theory continental philosophy and critical theory
