Distant Suffering Morality Media And Politics:

Distant Suffering Luc Boltanski, 1999-10-13 *Distant Suffering* first published in 1999 examines the moral and political implications for a spectator of the distant suffering of others as presented through the media. What are the morally acceptable responses to the sight of suffering on television for example when the viewer cannot act directly to affect the circumstances in which the suffering takes place. Luc Boltanski argues that spectators can actively involve themselves and others by speaking about what they have seen and how they were affected by it. Developing ideas in Adam Smith's moral theory he examines three rhetorical topics available for the expression of the spectator's response to suffering: the topics of denunciation and of sentiment and the aesthetic topic. The book concludes with a discussion of a crisis of pity in relation to modern forms of humanitarianism. A possible way out of this crisis is suggested which involves an emphasis and focus on present suffering.

Collective Morality and Crime in the Americas Christopher Birkbeck, 2013 This book examines the nature of collective morality as it materializes in public commentary about crime in the Americas and identifies the ways in which the moral community is talked into being and how the imagined moral universe is mapped.

Murder, the Media, and the Politics of Public Feelings Jennifer Petersen, 2011-08-12 In 1998 the horrific murders of Matthew Shepard, a gay man living in Laramie, Wyoming, and James Byrd Jr., an African American man dragged to his death in Jasper, Texas, provoked a passionate public outrage. The intense media coverage of the murders made moments of violence based in racism and homophobia highly visible and which eventually led to the passage of the Matthew Shepard and James Byrd Jr. Hate Crimes Prevention Act in 2009. The role the media played in cultivating, shaping and directing the collective emotional response toward these crimes is the subject of this gripping new book by Jennifer Petersen. Tracing the emotional exchange from news stories to the creation of law, Petersen calls for an approach to media and democratic politics that takes into account the role of affect in the political and legal life of the nation.

Law and Catastrophe Austin Sarat, Martha Merrill Umphrey, Lawrence Douglas, 2007-06-18 The study of catastrophe is a growth industry. Today cosmologists scan the heavens for asteroids of the kind that smashed into earth some ninety million years ago, leading to the swift extinction of the dinosaurs. Climatologists create elaborate models of the chaotic weather and vast flooding that will result from the continued buildup of greenhouse gases in the planet's atmosphere. Terrorist experts and homeland security consultants struggle to prepare for a wide range of possible biological, chemical and radiological attacks: aerated smallpox virus spread by a crop duster, botulism dumped into an urban reservoir, a dirty bomb detonated in a city center. Yet strangely, law's role in the definition, identification, prevention and amelioration of catastrophe has been largely neglected. The relationship between law and other limiting conditions such as states of emergency has been the subject of rich and growing literature. By contrast, little has been written about law and catastrophe. In devoting a volume to the subject, the essays' authors sketch the contours of a relatively fresh yet crucial terrain of inquiry. *Law and Catastrophe* begins the work of developing a jurisprudence of catastrophe.

Volume Set] Clare Bielby, Mererid Puw Davies, 2024 This two volume set explores what postwar German representations and imaginings of violence in other places and times tell us about Germany *Global Media, Biopolitics, and Affect* Britta Timm Knudsen, Carsten Stage, 2014-12-05 *Global Media Biopolitics and Affect* shows how mediations of bodily vulnerability have become a strong political force in contemporary societies In discussions and struggles concerning war involvement healthcare issues charity democracy movements contested national pasts and climate change performances of bodily vulnerability is increasingly used by citizens to raise awareness create sympathy encourage political action and to circulate information in global media networks The book thus argues that bodily vulnerability can serve as a catalyst for affectively charging and disseminating particular political events or issues by means of media To investigate how when and why that happens and to evaluate the long term social impacts of mediating bodily vulnerability the book offers a theoretical framework for understanding the role of bodily vulnerability in contemporary digital media culture Likewise it presents a range of close empirical case studies in the areas of illness blogging global protests after the killing of Neda Agda Soltan in Iran charity communication green media activism online war commemoration and digital witnessing related to conflicts in Sarajevo and Ukraine *Global Media Convergence and Cultural Transformation: Emerging Social Patterns and Characteristics* Jin, Dal Yong, 2010-11-30 This book aims to engage the complex relationship between technology culture and socio economic elements by exploring it in a transnational yet contextually grounded framework exploring diverse perspectives and approaches from political economy to cultural studies and from policy studies to ethnography Provided by publisher [The Political Web](#) Peter Dahlgren, 2013-08-09 As democracy encounters difficulties many citizens are turning to the domain of alternative politics and in so doing making considerable use of the new communication technologies This volume analyses the various factors that shape such participation and addresses such key topics as civic subjectivity web intellectuals and cosmopolitanism **Broadcasting Apartheid** TAL. ZALMANOVICH, 2025-11-24 In *Broadcasting Apartheid* Tal Zalmanovich explores how television revolutionized the political landscape in postwar Britain and played a pivotal role in the international campaign against apartheid from 1950 to 1990 Drawing on case studies and a diverse array of sources Zalmanovich argues that television s ability to transcend geographical and temporal boundaries proved instrumental in building a global coalition against apartheid in South Africa Moreover she shows how the medium became a key battleground in the broader struggle for racial equality in Britain where debates over apartheid intersected with contemporary discussions about race immigration decolonization and Cold War politics [Communications/Media/Geographies](#) Paul C. Adams, Julie Cupples, Kevin Glynn, André Jansson, Shaun Moores, 2016-09-19 Although there are human geographers who have previously written on matters of media and communication and those in media and communication studies who have previously written on geographical issues this is the first book length dialogue in which experienced theorists and researchers from these different fields address each other directly and engage in conversation across traditional academic boundaries The result is a

compelling discussion with the authors setting out statements of their positions before responding to the arguments made by others One significant aspect of this discussion is a spirited debate about the sort of interdisciplinary area that might emerge as a focus for future work Does the already established idea of communication geography offer the best way forward If so what would applied or critical forms of communication geography be concerned to do Could communication geography benefit from the sorts of conjunctural analysis that have been developed in contemporary cultural studies Might a further way forward be to imagine an interdisciplinary field of everyday life studies which would draw critically on non representational theories of practice and movement Readers of Communications Media Geographies are invited to join the debate thinking through such questions for themselves and the themes that are explored in this book for example of space place meaning power and ethics will be of interest not only to academics in human geography and in media and communication studies but also to a wider range of scholars from across the humanities and social sciences Media Sociology and Journalism Greg Nielsen, 2023-02-14 Media Sociology and Journalism Studies in Truth and Democracy proposes an accurate reading on fake populism regimes Greg Nielson navigates on the fruitful and relevant tradition on media and power relationships to highlight the contributions of professional journalism to the fragility of democracy F bio Pereira Chair of Scientific Journalism Universit Laval **Revisiting Social Theory** D.V. Kumar, 2024-04-08 This book revisits social theory with a view to highlighting certain essential features of good social theory its ability to raise certain questions its explanatory power its critical and reflexive interrogation of concepts its search for objectivity its concern to make sense of empirical data and its aim of projecting some degree of generality and abstraction With particular attention to issues of nationalism democracy civil society state feminism neoliberalism minority rights environment and North East Indian society it considers whether new and more relevant theoretical questions need to be asked It will therefore appeal to scholars of social theory and political sociology with interests in new approaches to social theory and the development of local or indigenous social thought *Media Perspectives for the 21st Century* Stylianos Papathanassopoulos, 2011-03-17 Media Perspectives for the 21st Century brings together key international scholars to explore concepts topics and issues concerning the communication environment in contemporary democratic societies It combines qualitative and quantitative approaches to provide an interdisciplinary and truly global perspective that reflects the trends theories and issues in current media and communication research The collection raises significant questions about the study of the media by challenging approaches to major media and societal issues and analyses in more depth the range of concerns that shape both the present and the future media landscape and the issues these can create for communication It also investigates the main effects of technological developments on the domain of the news media and journalism Divided into two main sections Part I provides accounts of the role of the media in society and deals with agendas that affect the field of communications studies Part II goes on to examine the world of new media and offers analyses on the developments of the 21st century Chapters deal with

Media and Morality Roger Silverstone,2013-04-18 Roger Silverstone s compelling new book places the global media at the heart of the moral future of civilisation It argues that the media the press broadcasting the Internet and increasingly peer to peer technologies and networks have a profound significance for the way in which the world is understood by its citizens It also argues that without a clear understanding of that significance and without a critique of the way in which the media go about their daily business we are likely to see an erosion in the capacity of human beings to understand and respect each other especially those whom they see and hear only in their mediation In a world of increasing polarisation and demonisation the media have a powerful role to play They can reinforce or they can challenge that polarisation The book proposes that we should think of the global media as a mediapolis a single space of political and social communication in which the basis for the relationships between neighbours and strangers can be either constructed or destroyed The mediapolis is a moral space a space of hospitality responsibility obligation and judgement And questioning its present and future requires attention to issues of media justice media literacy and media regulation Media and Morality is essential reading for all students and scholars of the media but will be of equal fascination to anyone interested in the workings of our modern world

Media and Political Engagement Peter Dahlgren,2009-02-23 This book examines the media s role in shaping civic engagement and enhancing political engagement

Media, War and Postmodernity Philip Hammond,2007-10-10 Media War and Postmodernity investigates how conflict and international intervention have changed since the end of the Cold War asking why Western military operations are now conducted as high tech media spectacles apparently more important for their propaganda value than for

any strategic aims Discussing the humanitarian interventions of the 1990s and the War on Terror the book analyzes the rise of a postmodern sensibility in domestic and international politics and explores how the projection of power abroad is undermined by a lack of cohesion and purpose at home Drawing together debates from a variety of disciplinary and theoretical perspectives Philip Hammond argues that contemporary warfare may be understood as postmodern in that it is driven by the collapse of grand narratives in Western societies and constitutes an attempt to recapture a sense of purpose and meaning
