Class Boundaries in Europe Cédric Hugrée, Étienne Penissat, Alexis Spire, Johs. Hjelbrekke, 2022-11-30
Drawing inspiration from Pierre Bourdieu's social space theory, this book provides an unprecedented overview of class relations covering topics such as class polarisation, cultural reproduction, political orientations, and globalisation. The book applies Bourdieusian social space approach to show how class boundaries have been maintained or transformed in different European countries. Based on quantitative data, it proposes a renewal of the analysis of distances, divides, and relations of domination between social classes, documenting objective and symbolic boundaries that form the basis of individuals' living and working conditions in 11 European countries. Focusing on transformations of wealth inequalities, education strategies, and European labour markets, the book examines the role of cultural, economic, and social capital. It will be of interest to students and scholars across the social sciences, in particular to those studying social and wealth inequalities in a comparative perspective and Master's students in European studies.

Understanding Recognition Piotr Kulas, Andrzej Waśkiewicz, Stanisław Krawczyk, 2022-08-08
As the concept of recognition shifts from philosophical theory to other fields of the humanities and social sciences, this volume explores the nature of this border category that exists in the space between sociological and philosophical considerations related to concepts such as status, prestige, the looking glass, self-respect, and dignity, at times being used interchangeably with these terms. Bringing together work from across academic disciplines, it presents theoretical conceptualizations of recognition, demonstrates its operationalization in historical and literary research, considers recognition as a fundamental problem of sociological theory, and examines the concept as a marker of social distances and redistribution. An examination and demonstration of the full potential of recognition as a category. **Understanding Recognition: Conceptual and Empirical Studies** explores the contemporary meanings and manifestations of recognition and sheds light on its capacity to complement the
