CROSSING THE CONTINENTAL DIVIDE Ronald John Vierling, 2012-07-02 Told through preserved family diaries Crossing the Continental Divide joins two major 19th century American themes the moral consequences of chattel slavery and the cultural consequences of settlers going west In 1853 newly widowed Ethan Fall leaves Oxford England sailing with his two young daughters to Charleston South Carolina to begin their new life When they arrive Ethan unexpectedly becomes responsible for Sensible Rose a sixteen year old girl of mixed racial parentage In an effort to remove his daughters and Rose as far away as possible from the South's peculiar institution the four join a wagon train following the Oregon Trail As they travel Crossing the Continental Divide tells the story of their complex and changing relationships set against the dangers of slavery coupled to the dangers of westward migration *The Flowers Personified* J. J. Grandville, Nehemiah Cleaveland, 1849

The Misses Mallett; The Bridge Dividing E. H. Young, 2025-08-31 Reproduction of the original The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *Portrait of the Psychiatrist as a Young Man* Allan Beveridge, 2011-08-25 RD Laing remains one of the most famous psychiatrists of the last 50 years In the 1960s he enjoyed enormous popularity and received much publicity for his controversial views challenging the psychiatric orthodoxy He championed the rights of the patient and challenged the often inhumane methods of treating the mentally ill Based on a wealth of previously unexamined archives relating to his private papers and clinical notes *Portrait of the Psychiatrist as a Young Man* sheds new light on RD Laing and in particular his early formative years a crucial but largely overlooked period in his life The first half of the book considers Laing's intellectual journey through the world of ideas and his development as a psychiatric theorist An analysis of his notebooks and personal library reveals Laing's engagement not only with psychiatric theory but also with a wide range of other disciplines such as philosophy literature and religion This part of the book considers how this shaped Laing's writing about madness and his evolution as a clinician The second half draws on a rich and completely unexplored collection of Laing's clinical notes which detail his encounters with patients in his early years as a psychiatrist firstly in the British Army subsequently in the psychiatric hospitals of Glasgow and finally in the Tavistock Clinic in London These notes reveal what Laing was actually doing in clinical practice and how theory interacted with therapy The majority of patients who were to appear in Laing's first two books *The Divided Self* and *The Self and Others* have been identified from these records and this volume provides a fascinating account of how the published case histories compare to the original notes There is a considerable mythology surrounding Laing partly created by himself and partly by subsequent commentators By a careful examination of primary sources Allan Beveridge both a psychiatrist and an historian examines the many mythological narratives about Laing and provide a critical but not unsympathetic account of this colourful and contradictory thinker who addressed questions about the nature of madness which are still being asked today This book will

be of interest to mental health workers and social historians alike as well as anybody interested in the philosophy of psychiatry

The Dividing Devin Downing, 2020-05-29 Hunger Games meets Brandon Sanderson in this dystopian fantasy of epic proportions Inspired by biblical theology The Dividing will pull you into a world of magic monsters and the most wicked of men Adamic is the language of the Gods When spoken it has the power to create worlds to raise the dead to make man as God Fortunately no one has spoken it in thousands of years The only remnants are the written spells The people of Cavernum depend on these spells They're etched into the city walls fending off the feeders deadly creatures with a thirst for human blood Yet for the lower class Cavernum isn't much safer Children starve and illness runs rampant Only the elite have access to magic and status must be earned One's class is determined by a single competition The Dividing Those who excel join the guild of their choice The rest are sent to the fields condemned to a life of slave labor Princess Roselyn Malik has trained her entire life for The Dividing She's guaranteed a spot in the royal orchestra but equalist rebels threaten her throne To secure her crown Rose must acquire the power and prestige associated with the guard Only guardsmen have access to the amulets powerful weapons that grant dominion over the elements Meanwhile in Colorado Matt will do anything to help his terminally ill adoptive mother For now that means poaching to pay the bills Until one day Matt is attacked by a feeder and plunged into the world of Cavernum There too Matt is drawn to the guard in search of a magic strong enough to save his mother But danger lurks beyond the walls and Cavernum won't be safe for long

The Dating Divide Celeste Vaughan Curington, Jennifer Hicke, Lundquist, Ken-Hou Lin, 2021-02-09 The data behind a distinct form of racism in online dating The Dating Divide is the first comprehensive look at digital sexual racism a distinct form of racism that is mediated and amplified through the impersonal and anonymous context of online dating Drawing on large scale behavioral data from a mainstream dating website extensive archival research and more than seventy five in depth interviews with daters of diverse racial backgrounds and sexual identities Curington Lundquist and Lin illustrate how the seemingly open space of the internet interacts with the loss of social inhibition in cyberspace contexts fostering openly expressed forms of sexual racism that are rarely exposed in face to face encounters The Dating Divide is a fascinating look at how a contemporary conflux of individualization consumerism and the proliferation of digital technologies has given rise to a unique form of gendered racism in the era of swiping right or left The internet is often heralded as an equalizer a seemingly level playing field but the digital world also acts as an extension of and platform for the insidious prejudices and divisive impulses that affect social politics in the real world Shedding light on how every click swipe or message can be linked to the history of racism and courtship in the United States this compelling study uses data to show the racial biases at play in digital dating spaces

West of the Divide Paula Overton, 2021-02-03 *West of the Divide* By Paula Overton Paula Overton was born and raised in the South She and her husband have traveled extensively all over the world and the United States She loved the Northwest United States including the area West of the Divide The ruggedness of the area remains the same through the years When

she first saw the area around the Salmon River even now with the modern highways and cities it remains a wonderful rugged land She thought back about the pioneers who came West to tame this wild land This impeccable spot of the country inspired Overton to write about the settlers experiences And to try and bring to life what it must have been like to settle this terrain Anyone with an interest in the history of the United States and its development especially the area West of the Divide will thoroughly enjoy Paula Overton s work *Bicycling Beyond the Divide* Daryl Farmer,2008-01-01 On a journey begun twenty years earlier Daryl Farmer a twenty year old two time college dropout did what lost men have so often done in this country he headed west Twenty years later and seventy pounds heavier with the yellowing journals from that transformative five thousand mile bicycle trek in his pack Farmer set out to retrace his path This is his story of pursuing that distant summer and that distant dream of home where home is endless space a roof of big sky and a bed of dry earth Just as the years altered the man so too have they altered the West and Farmer s second journey affords a unique perspective on these changes as well as on what lasts Whether caught in a Colorado snowstorm or braving a Yellowstone herd of bison kayaking with orcas in Puget Sound trading Ninja moves with a homeless man in San Francisco or getting the lowdown on aliens on Nevada s Extraterrestrial Highway Farmer charts a moving landscape of people and places This is the West where the natural world and personal character are inextricably linked and where one man s ride into the past and present takes us to the heart of that ever evolving connection *Watching The House Divide* John Brackman,2020-04-15 In 1860 the country was once again having a presidential election This election and its results would prove to be one of the most contentious of any that the United States had ever faced since becoming a nation John Brown had attempted a slavery revolt which caused concern because it went beyond the normal abolition methodology of speeches and editorials degrading slavery But the revolt had been quickly put down and John Brown had been hung As the year progressed however it became very clear that the security of the country was changing minds were being hardened and sides were being chosen This change initially manifested itself in the Democratic Presidential convention The old Democrat Party was torn in two by the failure of the northern and southern Democrats to agree on a platform and a candidate so consequently two Democrat Party conventions emerged and two Presidential Democratic candidates were on the ballot However the new Republican Party its candidate Abraham Lincoln and its platform of no slavery in the territories had found a following in the northern states And to further complicate matters a fourth party emerged named the National Union Party with its slogan The Union the Constitution and the Enforcement of the Laws and put forth its own candidate The election of Abraham Lincoln was seen by the South as a sectional victory for the abolitionists who favored the elimination of slavery Although the Republican Party platform did not have a plank of slavery elimination it did have a plank stating that slavery was to be excluded from the territories The South saw this as an unconstitutional act and also believed that a Republican administration would actively work to eventually eliminate slavery everywhere and consequently destroy their way of life So the southern states began utilizing the method they had threatened

since the administration of Andrew Jackson which was secession The act of dissolution which most citizens had never seriously considered was now being actively utilized by the slave holding states The country immediately looked for solutions to resolve their differences but these solutions generally involved amending the Constitution in ways beneficial only to the slave holding states The Republicans having just won an election were in no mood to compromise and the seceded states had no inclination to return to the Union they had just left In addition the two sections of the country began gearing up for war the South especially needed the armaments and property that the U S Government held on their soil So the engagement of wills coalesced at Ft Sumter the vital coastal defense and customs facility snuggled squarely in the Charleston harbor Both sides showed their mettle here and the country slid into the abyss not emerging as a new nation for four years and after the lives of almost three quarters of a million men were extinguished All of these events were printed in the numerous local newspapers which the average citizen relied upon for local news state news and national news But the various newspapers were generally edited to present the local editors views on the various subjects under consideration which influenced their readers There were generally three views depending in what section of the country you lived The South was pro slavery the North was generally anti slavery and the Border States could fall into both categories depending on location This book is the story of how five of those newspapers reported these happenings to a worried and divisive nation

Crossing the Psycho-Social Divide George Cavalletto, 2016-07-22 The prevailing view among social scientists is that the psyche and the social reside in such disparate domains that their proper study demands markedly incompatible analytical and theoretical approaches Over the last decade scholars have begun to challenge this view In this innovative work George Cavalletto moves this challenge forward by connecting it to theoretical and analytical practices of the early 20th century His analysis of key texts by Sigmund Freud Max Weber Theodor Adorno and Norbert Elias shows that they crossed the psycho social divide in ways that can help contemporary scholars to re-establish an analytical and theoretical understanding of the inherent interconnection of these two domains This book will particularly interest scholars and students in sociology and social psychology especially those in the fields of social theory the sociology of emotion self and society and historical sociology *Parliamentary Papers* Great Britain. Parliament. House of Commons, 1856 *Taylor's Guide to Growing North America's Favorite Plants* Barbara Ellis, 2000-04-30 This fact filled reference to all aspects of growing classic garden plants includes a mini encyclopedia listing the best varieties to buy illustrated instructions on performing garden tasks suggestions for using plants in the home landscape and directions on propagating **Art-Union**, 1881 **Dividing Paris** Esther da Costa Meyer, 2022-02-15 Dividing Paris Urban Renewal and Social Inequality 1852 1870 offers a new look at the ambitious urban changes that transformed the city of Paris during the Second Empire when Paris became a template for urban renewal in many large cities in Europe North and South America Esther da Costa Meyer looks at the social and historical context of these urban changes what Napoleon III his prefect Georges Eugene Haussman and their team of engineers planned as well as how the diverse and deeply stratified public responded to them Along with broad streets and

boulevards intended to enable crowds and merchandise to circulate and also impede the chances of popular insurgency. Haussman's project of urban renewal called for ample water supply, sewerage, and public parks and gardens. These changes radically altered the old tightly knit weave of the medieval city serving the needs of the industrial bourgeoisie while forcing the urban poor to the outskirts. *Dividing Paris* is the first architectural history of the city that takes into account the larger part of the urban territory annexed in 1860: a ring of settlements and villages which became increasingly class specific. Instead of relating the story of Haussmanization as a top-down administrative effort, as Haussman's critics and admirers have both tended to do, it draws on primary sources, especially newspapers and memoirs, to investigate the degree to which Parisians' experiences of modernity were class and gender specific and to ask what strategies working-class men and women in particular used to cope with and in some cases resist the changing world around them. At the same time, da Costa Meyer resists the familiar narrative of Paris as capital of the 19th century that has endured at least since Walter Benjamin's famous essay, as eurocentric and misleading insofar as it fails to situate Paris's urban developments in a broader global context or to acknowledge the extent to which Haussmanization was itself implicated in the broader imperial project on which France was embarked at the time.
