Divine Command Ethics:

Divine Command Morality Paul Rooney, 1996 This work is a philosophical defence of the tenability of divine command theory as an acceptable Christian account of morality The theory states that morality is founded upon God's commands It has been associated particularly with Duns Scotus and William of Ockham What God commands man has a moral duty to do what He forbids man ought to avoid and man's duties arise only because God commands or forbids certain things There are various ways of understanding what constitutes a divine command and this work focuses on the claim that revealed scriptural commands are the foundation of morality

God's Call J. E. Hare, 2001 There has been a debate between modern ethicists who see moral judgments as objectively corresponding to a moral reality independent of human opinion and those who insist that moral judgments are essentially expressions of our will In this excellent philosophical work John Hare outlines a theory that combines the merits of both views arguing that what makes something right is that God calls us to it In the first chapter Hare gives a selective history of the sustained debate within Anglo American philosophy over the last century between moral realists and moral expressivists Best understood as a disagreement about how objectivity and subjectivity are related in value judgment this debate is of particular interest to Christians who necessarily feel pulled in both directions Christians want to say that value is created by God and exists whether we recognize it or not but they also want to say that when we value something our hearts fundamental commitments are also involved Hare suggests prescriptive realism as a way to bring both perspectives together The second chapter examines the divine command theory of John Duns Scotus looking particularly at the relationship that Scotus established between God's commands human nature and human will Hare shows that a Calvinist version of the divine command theory of obligation can be defended via Scotus against natural law theory as well as against contemporary challenges A significant theme treated here is the view that the Fall disordered our natural inclinations rendering them useless as an authoritative source of guidance for right living In the last chapter Hare moves to the key philosophical juncture between the medieval period and our own time the moral theory of Immanuel Kant in the late eighteenth century Modern moral philosophy has largely taken Kant's work as a refutation of divine command theory and a refocusing of the discussion on human autonomy Hare shows that Kant was in fact not arguing against the kind of divine command theory that Hare supports He discusses what Kant meant by saying that we should recognize our duties as God's commands and he defends a notion of human autonomy as appropriation Featuring original moral theory and fresh interpretations of the thought of Duns Scotus and Kant God's Call is valuable both for its overview of the history of moral debate and for its construction of a sound Christian ethic for today

Divine Commands and Morality Paul Helm, 1981 This collection of twelve papers covers the question of the relation between morality and religion The contributors include William Frankena Philip Quinn Robert Merrihew Adams Richard Swinburne James Rachels Nelson Pike Peter Geach Robert Young Baruch Brody and others

An Essay on Divine Command Ethics Jeremy Alan Evans, 2010 Twentieth century analytic

philosophy ushered in a renewed interest in an ethical theory known as the Divine Command Theory of ethics DC Consequent to the work of G E Moore philosophers have been involved in metaethics or how we may ground ethical terms such as 0 good0 and 0 right0 The traditional DC response is to argue that God is the source of good and best serves that role in that He is an 0 ideal observer0 of all states of affairs The question is how is God0 9s will relevant to determining the moral status of actions At this point one may distinguish between what God wills and what God in fact commands However the contemporary debate is to determine whether it is God0 9s commands or God0 9s will that is primary in determining moral obligation The most vivid portrait of this distinction is found in the binding of Isaac There we note that God commands Abraham to sacrifice Isaac but it is not at all clear that God wills the actual death of Isaac Thus in this work I will present and defend a coherent DC view of ethics whereby our moral obligations are derived from the commands of God In chapter II I will provide a brief history of philosophers who have endorsed DC In chapter III I will argue that the best ground for objective moral values is best defined by DC Chapter IV will be devoted to my particular argument for DC I will take up the task of defending the traditional command view of DC Chapters V and VI will be devoted to developing plausible responses to major objections to DC In chapter V I will attempt a resolution of the famous Euthyphro dilemma and in chapter VI I will argue that endorsing a DC view of ethics in no way negates the autonomy of the moral agent

Divine Commands and Moral Requirements Philip L. Quinn, Philip Lawrence Quinn, 1978 In this wide ranging study Quinn argues that human moral autonomy is compatible with unqualified obedience to divine commands He formulates several versions of the crucial assumptions of divine command ethics defending them against a battery of objections often expressed in the philosophical literature

Nature and Command J. Caleb Clanton, Craig Martin, 2023-08-18 Since at least the time of Plato religious explanations of the metaphysical foundations of morality have typically fallen into one of two camps natural law theory according to which morality is fundamentally explained by facts about human nature facts that God is responsible for and divine command theory which holds that moral obligations arise directly from God s commands or some other prescriptive act of the divine will J Caleb Clanton and Craig Martin offer an accessible analysis of these traditional views reconstruct the various arguments for and against them and offer an extended consideration of the historical emergence of the divide between these positions within the Christian tradition Nature and Command goes on to develop and defend a theory that combines these two views a metaethical approach that has not yet received the scholarly attention it deserves Along the way the authors make use of underexplored theological resources drawn from the Stone

Campbell movement a nineteenth century restoration movement that culminated in one of the largest Protestant groups in America by the dawn of the twentieth century Nature and Command summons the resources of this particular Christian heritage its first principles call for unity and ecumenism to solve one of the great dilemmas of moral philosophy and theology dating back to Plato's Euthyphro This historically aware argumentatively rigorous and highly readable volume will serve as a valuable resource for moral philosophy and ethics as well as for mining the Stone Campbell Restoration tradition for historical and theological insights

Harris, 2004-03 This book analyzes the response of the classic texts of Jewish tradition to Plato's Euthyphro dilemma Does God freely determine morality or is morality independent of God The Oxford Companion to Christian Thought Adrian Hastings, Alistair Mason, Hugh S.

Morality William J. Wainwright, 2017-03-02 Religion and Morality addresses central issues arising from religion's relation to morality Part I offers a sympathetic but critical appraisal of the claim that features of morality provide evidence for the truth of religious belief Part II examines divine command theories objections to them and positive arguments in their support Part III explores tensions between human morality as ordinarily understood and religious requirements by discussing such issues as the conflict between Buddhist and Christian pacifism and requirements of justice whether virtue without a love of God is really a vice whether the God of the Abrahamic religions could require us to do something that seems clearly immoral and the ambiguous relations between religious mysticism and moral behavior Covering a broad range of topics this book draws on both historical and contemporary literature and explores afresh central issues of morality and religion offering new
