Divine Child:

Jung and the Jungians on Myth Steven F. Walker, 2002 In this book Steven Walker carefully leads the reader through the fundamentals of the psychology that underlies Jung's theory of myth. He defines key terms and distinguishes dream from fantasy in psychological experience. He then traces the lineage of Jungian theory from Jung through such disciples as Van Franz and Neumann to contemporary archetypal psychology. By applying Jungian psychology to an array of myths to illustrate core concepts of this theoretical tradition, Walker fills a conspicuous gap in the current literature on Jung from back cover

Encyclopedia of Wicca & Witchcraft Raven Grimassi, 2000 This indispensable reference work provides both a historical and cultural foundation for modern Wicca and Witchcraft and it is the first to be written by an actual practitioner of the Craft. Features include modern Wicca expressions, sayings, and terminology. Illustrations. Guardians of the Celtic Way Jill Kelly, 2003-04-24 A channeled overview of the Celtic path of Arthurian fulfillment, a vision of personal and planetary transformation. Gives a detailed explanation and overview of the kingdoms of nature and the devic forces that comprise the Divine Mother's kingdom on Earth. Explains the Celtic calendar and the primary natural forms: animal, stone, tree, flower, plant, and bird that are activated during the 16-month lunar cycle of emotional growth. According to the Celtic Way, all spirit forces and forms of nature are here to teach and support every individual in attaining his or her full wisdom status. In this way, Earth can become a land of beloveds who have fully embodied the laws of love in sacred partnerships, each individual cocreating with the divine. This is the Arthurian fulfillment. It is only through meeting our innermost fears, our shadows, and dragons and transforming them into love that we may emerge as divine humans empowered to lift the entire planet closer to this sacred vision of the peaceable kingdom restored. Instructed by the guardians of the Other World, trees, animals, and other Earth spirits, Celtic scholar Jill Kelly outlines the cosmology of Celtic mysticism that orders the Divine Mother's kingdom on Earth and that calls humanity to awaken to its sacred potential. Guardians of the Celtic Way describes the 142 planes of the soul's descent into the separation from the One, explains the Celtic calendar, and how the forces of nature interact with earthly cycles to assist us in bringing about spiritual fulfillment and gently calls us to follow the Celtic path of ascension and establish Heaven on Earth. *Crossing into Manhood: A Men's Studies Curriculum* Christopher P. Mason, 2006 Many scholars have documented and decried the crisis in American masculinity. There is a preponderance of evidence showing that males suffer from many physical, emotional, and social ills due to the gender scripts with which they were raised and which continue to govern men's lives. Throughout the millennia and across cultures, initiation rites of passage have been utilized as an effective means of transitioning young males into manhood. Modern culture suffers from a dearth of rites of passage, leaving many boys stuck in puerile attitudes and behaviors and unable to make a wholesome transition into mature masculinity. *Crossing into Manhood* is a much-needed guide on assisting late adolescent boys transition into manhood. It proposes a school-based curriculum and rite of passage paradigm to help young men make the difficult passage into

manhood Utilizing resources from diverse academic disciplines this book surveys the psychoanalytic the social constructionist and the essentialist perspectives on masculine gender As a result a men s studies curriculum has been formulated one that offers a balanced bio psycho social conceptualization of masculine identity Educators will find the contents of this book helpful in providing the key conceptual information necessary to teach a men s studies course to late adolescent boys This book will provoke further dialogue and work among educators and other adults in this important area
