Divine Representation In The Ancient Near East:

Cult Image and Divine Representation in the Ancient Near East Neal H. Walls, 2005 While biblical prophets ridiculed the notion of humans fashioning an idol that they would then worship ancient Near Eastern theologians developed a sophisticated religious system in which divine beings could be physically manifest within the material of a cultic image without being limited by that embodiment The four essays in this compact volume examine the intriguing subject of cultic images and divine iconography in Mesopotamia Egypt Anatolia and Syria Palestine This interesting and eclectic group of essays explores the textual and artifactual evidence for the creation and veneration of divine images in the ancient Near East The recent resurgence of scholarly interest in the study of divine representation in ancient Israel and the Near East makes this comprehensive reexamination especially timely *Divine Representation in the Ancient Near East*, 2005 *The Wiley Blackwell Companion to Ancient Israel* Susan Niditch, 2016-01-26 The Companion to Ancient Israel offers an innovative overview of ancient Israelite culture and history richly informed by a variety of approaches and fields Distinguished scholars provide original contributions that explore the tradition in all its complexity multiplicity and diversity A methodologically sophisticated overview of ancient Israelite culture that provides insights into political and social history culture and methodology Explores what we can say about the cultures and history of the people of Israel and Judah but also investigates how we know what we know Presents fresh insights richly informed by a variety of approaches and fields Delves into religion as lived an approach that asks about the everyday lives of ordinary people and the material cultures that they construct and experience Each essay is an original contribution to the subject *Selves Engraved on Stone: Seals and Identity in the Ancient Near East, ca. 1415-1050 BCE* Serdar Yalcin, 2022-10-04 Typically carved in stone the cylinder seal is perhaps the most distinctive art form to emerge in ancient Mesopotamia It spread across the Near East from ca 3300 BCE onwards and remained in use for millennia What was the role of this intricate object in the making of a person's social identity As the first comprehensive study dedicated to this question *Selves Engraved on Stone* explores the ways in which different but often intersecting aspects of identity such as religion gender community and profession were constructed through the material visual and textual characteristics of seals from Mesopotamia and Syria **Abraham Among Golems** Andrei A. Orlov, 2024-10-01 In this insightful book Andrei A Orlov examines the symbolism of the image of God found in early Jewish pseudepigraphical accounts paying special attention to the cultic traditions in the Apocalypse of Abraham The study demonstrates that the Jewish pseudepigrapha transform various biblical characters including Enoch Abraham Jacob Moses and Aseneth into eschatological embodiments of the imago Dei The book argues that these cultic metamorphoses preserve memories of ancient Near Eastern and Egyptian rituals involving the vivification of cultic statues The Apocalypse of Abraham and other early Jewish pseudepigraphical accounts attempt to polemically refashion the concept of cultic statues by envisioning their protagonists as divine representations in the form of the eschatological image of God Where the Gods

Are Mark S. Smith, 2016-06-28 The issue of how to represent God is a concern both ancient and contemporary In this wide ranging and authoritative study renowned biblical scholar Mark Smith investigates the symbols meanings and narratives in the Hebrew Bible Ugaritic texts and ancient iconography which attempt to describe deities in relation to humans Smith uses a novel approach to show how the Bible depicts God in human and animal forms and sometimes both together Mediating between the ancients theories and the work of modern thinkers Smith s boldly original work uncovers the foundational understandings of deities and space

The Branch Preston T. Massey, 2018-07-24 The thesis of the book may be stated simply it is an argument based upon the four prophetic texts of Jer 23 5 Zech 3 8 6 12 and Isa 4 2 as a foundational pattern for the four Gospels These four prophetic texts it will be argued mention a King Branch a Servant Branch a Man Priest Branch and a Lord God Branch This study seeks to show how Matthew presents Jesus as the King Branch Mark as the Servant Branch Luke as the Priest Man Branch and John as the Lord God Branch Consideration will also be given to explore the ramification of the four living Beings as described in Rev 4 6 7 Given the sum total of this sequence of literary facts the conclusion of this book will raise a number of possible implications One of these implications will offer the conclusion that the four evangelists could not have written their four Gospels solely on their own human unaided efforts Yavneh Raz Kletter, Irit Ziffer, Wolfgang Zwickel, 2010 In the words of late Professor Moshe Kochavi the Philistine repository pit at Yavneh is the kind of discovery made only once every fifty years It is the richest repository pit ever found from Bronze and Iron Ages Israel Palestine containing thousands of cultic finds originating from a temple including an unprecedented number more than a hundred of cult stands so called architectural models carrying rich figurative art dozens of fire pans chalices and other objects The present volume includes the full publication of the excavation the stratigraphy the cult stands and the figures detached from cult stands several clay and stone altars and some pottery vessels related to burning of plant material most likely incense This exceptional book raises a host of highly important and intriguing questions Is this a favissa or even a genizah Why are many cult stands badly broken while some are intact were cult stands broken on purpose What is the explanation for the unique stratigraphy and for the layer of gray ash in the pit was fire kindled inside as part of a ritual How do we know that these finds are Philistine Are they part of the furniture of the temple or objects dedicated by worshippers as votives Do the figures on the cult stands represent mortal beings or divinities If divinities can we relate them with Biblical or extra biblical data on the gods of the Philistines What was the function s of cult stands Were they models of buildings supports for images offering tables altars or perhaps incense burners Why are female figures dominant while male figures are virtually absent In discussing such topics Yavneh I treats issues that are central to many fields of study religion and cult in Iron Age Israel Palestine the history and archaeology of the Philistines and their western relations Near Eastern iconography the meaning of cult stands architectural models and the understanding of votive objects and of repository pits in general Literally salvaged from the teeth of a bulldozer these rare finds are now published Generations of scholars will

discuss and reinterpret them there is no final word for such finds and hence this final excavation volume is not an end but a beginning

The Oxford Handbook of Ritual and Worship in the Hebrew Bible Samuel E. Balentine, 2020 The conceit in the title of this volume is that ritual however expansively it may be defined is ineluctably tethered to religion and worship It has a primal connection to the idea that a transcendent order numinous and mysterious supranatural and elusive divine and wholly other gives meaning and purpose to life The construction of rites and rituals enables humans to conceive and apprehend this transcendent order to symbolize it and interact with it to postulate its truths in the face of contradicting realities and to repair them when they have been breached or diminished The focus of this Handbook is on ritual and worship from the perspective of biblical studies particularly on the Hebrew Bible and its ancient Near Eastern antecedents Within this context attention will be given to the development of ideas in Jewish Christian and Muslim thinking but only insofar as they connect with or extend the trajectory of biblical precedents The volume reflects a wide range of analytical approaches to ancient texts inscriptions iconography and ritual artifacts It examines the social history and cultural knowledge encoded in rituals and explores the way rituals shape and are shaped by politics economics ethical imperatives and religion itself Toward this end the volume is organized into six major sections Historical Contexts Interpretive Approaches Ritual Elements participants places times objects practices Underlying Cultural and Theological Perspectives History of Interpretation Social Cultural Functions and Theology and Theological Heritage
